YOUR **DIGITAL** **TRANSFORMATION** PARTNER

Today, we are witnessing a digital world driven by robust connectivity and tech-savvy Netizens. The businesses are compelled to redraw their digital priorities to stay relevant and competitive. This transformation is driving organizations to innovate, achieve operational flexibility, and augment end-to-end customer experiences. Furthermore, this transition is disrupting their legacy business models and driving them to redesign their products & services and realign themselves with the customers. However, the real success of a digital transformation depends upon the level of being adaptive for embracing the change with speed and an elegant experience.

As a trusted digital transformation partner, we help organizations to embrace digitalization towards greater efficiency and streamlined operations. The key for a successful digital transformation is knowing your customer, their industry, their challenges and partnering with them in creating an overall digital ecosystem. Nurturing a start-up like work

culture, we have diligently built industry-specific competencies across Telecom & Digital Media, Healthcare, Banking & Finance, Manufacturing & Logistics, and Retail & E-Commerce to enable digital transformation.

Over a period of time, we have built digital capabilities around Analytics,

Mobility, Cloud, and Internet of Things. We command marquee clientele across both, next-gen and legacy businesses. We enrich their Digital Transformation endeavour by modernizing their existing systems, developing core platform, and processes towards a robust and evolving digital ecosystem.

OUR DIGITAL CAPABILITIES

ANALYTICS

R Systems analytics practice provides industry-specific services and solutions with qualitative and quantitative actionable insights to address business challenges through data and speech analytics. These actionable insights are aggregated, transformed and visualized to infer unexplored potential. Our analytics team deploys cutting-edge methodologies like organizational case studies, cognitive science, business intelligence, and industry-specific methods to deliver tangible ROI. Leveraging on the deep domain knowledge across industry verticals, our engagement starts with the particular assessment of an analytics query – build proof of concept – to the deployment of the most scalable model to answer it. This creates a vital information pool across the economical, statistical, social media, and speech metrics and delivers actionable business insight.

Our team showcasing our analytics services & solutions edge at Chief Analytics Officer Summit in New York.

CLOUD COMPUTING

The Cloud has changed businesses outlook towards technology. It has provided flexibility to technology companies to access emerging technologies at a nominal or no capital expense. Spearheading the Center of Excellence, R-Cloud covers cloud offerings of all three leading public cloud platforms - Salesforce, Microsoft Azure, and Amazon Cloud Services. The world-class services under our ambit include hosting, consulting, architecture setup, designing, implementation, and monitoring.

Our prime focus remains on maximizing clients' ROI by ensuring business agility, IT flexibility, and data security. Our cloud competencies have further deepened our project engineering competencies, with product companies opting for cloud route to be more agile and responsive in the evolving digital world.

Our subsidiaries, IBIZ and ECnet, are also equipped with cloud platforms, facilitating SMEs and enterprise customers to maximize their ROI.

Our Core Competencies in Cloud Computing

- Blueprint For Introducing Cloud Environment
- Proper Cloud Selection For Individual Need
- Cloud Migration
- Customized SaaS Model
- Provisions For Accelerated Scalability & Optimized Development
- Enabled With Audio & Video Feature

MOBILITY

Mobility has emerged as the foundation of digital transformation due to its inherent attributes like quick accessibility, portability, and ease of operation. The flexibility to be available anytime & anywhere redefines the user experience. Customers leverage our mobility capabilities to bring transformational changes in their existing ecosystem. We collaborate with our clients at every phase of product development such as envisioning, designing, development, deployment, and

support of mobility solutions. We deliver responsive solutions across leading mobile platforms like iOS, Android, and Hybrid to

Web apps. Also, specialized in aligning mobile applications with specific business goals to deliver optimum results for enterprises.

INTERNET OF THINGS (IoT)

The melting point of the virtual world and the digital world creates a huge opportunity. IoT backed by automation captures real-time data and insights from different assets round-the-clock. As per industry estimates, there would be 50 billion connected devices fuelling the IoT solutions spending to surpass \$6 trillion by 2020.

Our IoT services enable seamless data acquisition, processing, and analytics. The clients tap our industry-specific knowledge, design thinking, and technical expertise for improving their business operations. Our IoT initiatives include bringing

intelligence to the edge and futuristic sensor devices using machine learning & artificial intelligence.

Building IoT solutions can be complex. It needs a lot of embedded software development and application development on cloud ecosystem. R Systems through its inherent product engineering DNA offers a unique blend of IoT consulting, strategy, implementation, and operational support to unravel the complexity of IoT.

Our IoT Offerings

- Conceptualize New IoT Business Opportunity Development
- Proof of Concept Development for IoT

FROM THE DESK OF **THE MANAGING DIRECTOR**

Dear Stakeholders,

It gives me great pleasure to share with you that we have successfully completed another exciting year in R Systems journey. This past year has been a continuum of our transformation journey making us a robust digital transformation partner for our esteemed clientele and prospective customers. Your Company has further intensified its transformational process to make giant strides in the fast changing IT ecosystem.

As we step into our Silver Jubilee year, I look back to our humble beginning in 1993. Starting as an IT consulting company located in California, we moved ahead and expanded to be an offshore based product engineering company. From there, we continued our transformation journey and have strengthened & refined our competencies, insights, and offerings into the diverse industry verticals like Telecom & Digital Media, Banking & Finance, Healthcare, Manufacturing & Logistics, and Retail & E-Commerce. Over the last two years, our journey has moved into another exciting phase. We have partnered with businesses to mark their presence in the digital world.

Today, the businesses with a go-digital mandate cannot afford to leave the benefits of legacy systems. On top of this, they want to be further agile to adapt to futuristic technologies. Being equipped with product engineering DNA and the requisite digital competencies, your Company is currently placed in a favorable position to benefit from the digital opportunity wave.

As a product engineering company, we are leveraging our expertise to deliver industry-specific digital solutions.

I relate this amazing transformation journey with the "Shakespearean Oyster" in which the English writer saw a world of endless opportunities. Like an Oyster, we would continue on our principles of Caring, Innovating, and Transforming as we move into exciting times ahead.

R Systems Digital Transformation Partner

As a product engineering company, we are leveraging our engineering expertise to deliver industry-specific digital solutions. These solutions leverage our technology advancement and deliver tangible ROI to our customers in terms of revenue uptick and/or cost efficiency.

In 2016, we have strengthened our end-to-end digital media competencies in Over-The-Top content (OTT), Digital Video Broadcasting (DVB), and Internet Protocol Television (IPTV) space. We are a preferred technology partner for industry giants and have delivered state-of-the-art niche projects. Our solutions are being used by approximately 50 million end users across the globe. Our Computaris business unit is also working closely with leading telecom ISVs and telecom operators enabling them to enter new areas of the digital world like Internet of Things (IoT) and the Machine-to-Machine (M2M) communications. The team has delivered exciting projects last year using advanced technologies enabling our Telecom partners to be more agile, customer centric, and effective. We have been featured in "Zinnov Zones" – 2016 as an "Emerging Product Engineering Company" based on our R&D practice's depth and maturity.

Our packaged solutions business units, IBIZ and ECnet, continue to deliver industry specific solutions to SMEs and large corporations to empower them for a smooth transition in the digital age.

Our Digital Media solutions are being used by 50 million global end users.

Foreseeing the digital opportunities, we continue to invest in building capabilities around Analytics, Digital Media, Cloud, Mobile, and Internet of Things. R Systems Analytics practice plays a key role by leveraging advanced technologies to develop sophisticated analytics solutions that drive business transformation. Today, we possess robust analytics solutions, accelerators, and framework that address the key challenges around data and speech analytics.

We have nurtured R-Cloud, a Center of Excellence for our cloud offerings. R-Cloud covers capabilities and offerings around all key public cloud, such as Salesforce, Azure, and AWS. On the mobility side, we continue to work on key projects across all the market platforms like Android, iOS, hybrid, and other types. Our new initiatives for IoT include developing solutions for home automation and factory automation using IoT Technology.

R Systems in 2016

The year 2016 was another satisfying year for us as it reiterated our position as a seasoned player in the IT Services industry.

We reported revenue of ₹ 5,882 million (US\$ 87.55 million) with EBITDA of ₹ 711 million (US\$ 10.6 million) and the net profit of ₹ 537 million (US\$ 7.99 million). The revenue grew by about 7.5% excluding the impact sale of product business during 2015. This revenue growth was reinforced

Added 16 new logos, of which 5 have potential to be US\$ million dollar plus customers along with 250 technical associates.

by 16 new logos, of which 5 have potential to be US\$ million dollar plus customers. We have served 21 million US\$ plus customers including 4 customers contributing US\$ 3 million plus. Telecom and Digital Media continues to be our largest industry vertical contributing 29% of the revenue. We are extremely excited with the traction towards our key industry verticals and digital capabilities.

During the year, even after making investments in building digital capabilities and expanding our sales & marketing bandwidth especially in the arena of digital marketing, we were able to clock EBITDA margin of 12.1% against 11.8% last year. This was primarily driven by improved efficiency as average utilization for 2016 was 78%. Further, net profit has also increased by 15.3% over the previous year excluding the exceptional gain mainly on the sale of the Indus business unit. Our balance sheet continues to remain strong with shareholders' funds of ₹ 2,780 million

(US\$ 40.9 million) and cash reserves of ₹ 1,200 million (US\$ 17.7 million).

We added 250 technical associates during the year 2016 to serve existing customers and encouraging pipeline. We have also expanded our infrastructure by adding a new state-of-the-art SEZ facility at Greater Noida to cater to our growth. We serve customers from 15 development and service centres located in India, North America, Europe, and the Far East, through a robust global delivery model. We are also exploring growth opportunities in other geographies with our strategic business expansion plans.

To Sum Up

The year 2017 started with certain geopolitical challenges, the outcomes of which are unexpected. We are cautiously monitoring the environment. Interestingly, these megatrends have not impacted the digital revolution. Digital transformation continues to be a driving force going forward.

In our 25th year, we are well placed to be a preferred digital transformation partner for legacy & born-digital businesses.

Our team possesses deep technology expertise and requisite understanding of the industry landscape to serve our marquee customer base. As a preferred strategic partner, we are partnering in setting up digital ecosystems. Having focused on project engineering, we plan to intensify our investment in expanding competencies and offerings for digital and newer technologies. As we flourish into our Silver Jubilee year, we are well positioned to navigate legacy as well as born-digital businesses in their digital transformation journey.

I would like to express my gratitude to all our shareholders, customers, bankers, various government agencies, industry associations and all other organizations for their unwavering faith and continued support. I am equally thankful to all my colleagues worldwide at R Systems for their support and contribution in the Company's transformation journey.

Yours Sincerely,
Satinder Singh Rekhi

FROM THE DESK OF SARTAJ REKHI

Dear Stakeholders,

We are at an interesting phase where we are collaborating with businesses for their digital transformation. Today, the most pronounced reality of digital business is unpredictability. Digital transformation has become imperative as it enables organizations to embrace a culture of change and to stay competitive. This transformation has an influence on entire business operations, be it, customer experience, productivity, or the internal functions. International Data Corporation (IDC) expects digital spending to maintain a compound annual growth rate (CAGR) of 17.9% over the 2015-2020 forecast period and reaching \$2.0 trillion in 2020. As digitization is tossing up both opportunities and challenges for the enterprises, we find ourselves well-placed for the next wave of growth.

We have envisioned these opportunities and built an overall eco-system to deliver the digital transformation. We have invested not

only in building competencies, framework and solutions, but also, nurtured an overall work culture to encourage adoption of digital technologies like Big Data Analytics, IoT, Mobile, Cloud, etc. We have nurtured the Centre of Excellence around these technologies bringing together innovative thinking, agile methodologies and an entrepreneurial approach. These centres of excellence have also aligned with other business functions such as delivery, sales and marketing to fuel the digital journey.

Today, the world markets have matured to become highly industry, process and technology specific. Accordingly, we have revamped our global sales and marketing functions making it more data driven and multi-channel to optimize interactions with prospects. During the year 2016, we have made our presence felt at the renowned industry / technology conferences and events like, Mobile World

Congress - Barcelona, IBC 2016 - Amsterdam Netherlands, Chief Analytics Officer Summit - New York and The Private Healthcare Summit 2016 - UK. We have proactively participated in the industry specific discussions and presentations showcasing our broad technology acumen along with deep industry insights.

As we continue our transformation journey, we are committed to cultivate a digital transformation eco-system to reinforce the growth of our business.

I would like to take this opportunity to extend my gratitude to all of our associates for their passion and excellence at work. Also, I would like to thank all our stakeholders for making us a dynamic enterprise.

Yours Truly,
Sartaj Rekhi

OUR CUSTOMERS SPEAK

I know the base development has been rocky, I wanted to say thanks to all of the guys for working through this. Most importantly, I wanted to acknowledge Amit. I believe he's stepped out of his comfort zone to get away from having full tech designs available to being able to improvise as necessary during this agile/iterative process, and he has begun to embrace the ability to make his own decisions on development approaches.

A Leading Provider of Enterprise Solutions to Non-Profit Organizations

Project team understands both network and IT. Most companies are good in either, not both. In our world, we are living between IT and network. They have this sweet spot just where we would like it to be. They are very consistent and easy to work with because they have rightly skilled people with similar profiles; there is predictability in the way we work together.

A Leading ISV Providing Data Integration Solutions

Great job team! You all have done a fantastic job working with the product owner and developing our solution in such a way that continues to exceed expectations.

A Leading IT Solution Provider for USA Healthcare Industry

I just wanted to express my sincere appreciation for the outstanding work you all did for the Mobile App. Everyone is really excited about this new mobile app. Anyway, I just wanted to let you all know that I really appreciate your hard work and dedication and that we wouldn't be where we are today if it wasn't for all of you.

A Renowned Bank in the USA

As you know our Patient Administration System went live this morning, so far this has been our most successful release yet, the staff is gradually finding their feet using the new system, but the early indications are that they are adapting quickly. I would like to thank all of the R Systems and Project Teams for their hard work and dedication to ensuring this release is a success. Congratulations to everyone involved.

A Leading Chain of Acute Care Hospitals in UK

Overall it was a challenging project in terms of execution both technical and from business Requirements. Good understanding of our requirements and systems knowledge has helped us to deploy the project on schedule.

A Leading Equipment Manufacturer in Singapore

Computaris has a lot of know-how concentrated around online charging & prepaid; not only do they have a lot of knowledge and experience in this area but also in the adjacent domains of mobile telecoms. A lot of companies claim to have this, but Computaris has proven it.

A Leading Telecom Player

We would like to show our appreciation to the team from IBIZ for achieving excellence in the area of project implementation and support standards.

A Chinese Mining Company

OUR DIGITAL WORK CULTURE

Work culture is like oxygen for an organization, essential to live and operate. Organizations can achieve sustainable change with a wholehearted involvement of its human capital. Work culture has been a key element for our successful digital transformation where our employees are valued, encouraged, and respected.

We offer an energetic, open, and intellectually appealing work atmosphere. Our various competency development programs unlock the leadership attributes with a winning mindset. Our high maturity people practices mapped to PCMM Level 5 standards, have ensured continuous development of our people assets while integrating enhancements into the organizational fabric. Cross-cultural training for our global workforce is promoted to

strengthen our global delivery model where multiple teams in different locations work together under agile methodology.

We have organized a Global Tech Meet 2016 at Noida, India, where our senior engineering, sales and marketing folks across all business units shared their experiences to leverage collective strengths in the digital era.

Additionally, we nurture an agile and entrepreneur work culture for a successful adoption of digital technologies like Big Data Analytics, Internet of Things (IoT), Mobile, Cloud, etc. We have created Centre of Excellence around digital technologies which guide our engineering, sales, and marketing team to adopt new technologies across industry verticals.

Our employees are valued, encouraged, and respected.

A glimpse from our Global Tech Meet

Global delivery model where multiple teams in different locations work together under agile methodology.

We have organized various events and training like IoT week which held at our Noida Development Centre in July 2016. The workshop enlightened and trained our resources on IoT Technology. The team from diversified verticals conceptualized, created, and developed new proof-of-concept projects.

Celebrating the essence of rendezvous and bonding, various fun filled events were conducted during the year. The RSI Cricket

League and Table Tennis tournament witnessed huge participation and zeal at our Noida Headquarters. Additionally, everyone put their best foot forward for the blood donation drive.

Regular cross-functional training programs, festive celebrations, and team building activities contributed to a vibrant workplace environment for everyone. Our European company, Computaris continued its various team building initiatives like hosting a party

at Bialystok office, outdoor employee trips, and participation in the Galati marathon. Our Singapore Subsidiary, ECnet and IBIZ celebrated diverse universal festivals, events to felicitate the longstanding employees and various other get-togethers.

A vibrant workplace environment for everyone.

TRANSFORMING LIVES THROUGH CSR

We remain committed towards our responsibilities beyond business and believe in giving back to the society by building a better world. Our CSR initiatives are dedicated to development and transformation of the underprivileged communities with the intent of improving their quality of life.

Snapshot of our CSR initiatives during 2016:

- The Company continued to contribute ₹ 15 Lakhs in its Corporate Social Responsibility initiative for the education and welfare of children from weaker sections.
- Our European subsidiary, Computaris donated laptops for rural schools in Nepal and Bangladesh.
- Computaris team visited an Institute taking care of underprivileged children and offered presents to the children which elated their spirits.
- Our employees participated in a blood donation drive organized in collaboration with AIIMS, Delhi.

- # The details given above for plan (c) are after making the required adjustment in relation to sub-division of each of the equity shares of Rs. 10 each into 10 equity shares of Re. 1/- each as per the record date of February, 28 2014.
- * EPS is Rupees per equity shares of Re. 1/- each i.e. after giving into effect Sub-division of equity shares of Rs. 10 each into equity shares of Re. 1/- each as per record date of February 28, 2014.
- ** R Systems International Ltd. - Year 2004 Employee Stock Option Plan has been completely expired on December 27, 2015 due to expiry of the term of the plan.
- § During the year ended December 31, 2016, on the recommendation of Compensation Committee and Nomination and Remuneration Committee, the Board of Directors at its meeting held on April 30, 2016, had further granted 150,000 options to Mr. Nand Sardana, Chief Financial Officer (Senior Management Personnel), at an exercise price of Rs. 12.07/- per option under R Systems International Limited Employee Stock Option Scheme 2007.

Disclosures as required under SEBI Employee Benefits Regulations read with Securities and Exchange Board of India circular no. CIR/CFD/POLICY CELL/2/2015 dated June 16, 2015 are available on the Company's website at http://www.rsystems.com/investors/Annual_reports.aspx.

All options granted under R Systems Employees Stock Option Plan - Year 2001 have already been vested and exercised or lapsed and no options were in force as on December 31, 2016.

For options granted during the earlier years under plan (a) and (c) R Systems used the fair value of the stock options for calculating the employees compensation cost.

For the purpose of valuation of the options granted during earlier years, the management obtained fair value of the options at the date of grant under respective schemes from a firm of Chartered Accountants, to determine accounting impact, if any, of options granted over the periods. In the considered opinion of the valuer, the fair value of option determined using 'Black Scholes Valuation Model' under each of above schemes is "Nil" and thus no accounting thereof is required.

The assumptions used for the purpose of determination of fair value are stated below:

Assumptions	Unit	Scheme (a)*	Scheme (b)**	Comments by the valuer
Strike price	Rs.	42	154	
Current share price	Rs.	16	140	Taken on the basis of NAV and PECV method of valuation.
Expected option life	No. of Years	5	2.5	Being half of the maximum option life.
Volatility	%	1	0.5	In case of unlisted shares, the volatility may be taken as zero. Verma committee also recommends this.
Risk free return	%	7	11.3	Zero coupon rate estimated from trading government securities for a maturity corresponding to expected life of option - taken from sites of NSE and / or BSE.
Expected dividend Yield	%	-	15	Company has no set policy so dividend taken as zero. In case of R Systems Employee Stock Option Plan - Year 2001, as the dividend had been paid by the erstwhile company, it has been assumed at 15%.

- * R Systems International Ltd. - Year 2004 Employee Stock Option Plan under which the price was based on Rs. 2 per share.
- ** R Systems Employees Stock Option Plan - Year 2001 under which originally the price was based on Rs. 10 per share for 21,967 shares. As a result of amalgamation of Indus Software Private Limited into R Systems, R Systems had issued 206,822 equity shares of Rs. 2 each pursuant to the swap ratio approved by Hon'ble High Courts of Delhi and Mumbai.

Please note that the details given above for plan (a), and (b) are before making the required adjustments in relation to consolidation of each of the 5 equity shares of Rs. 2 each into 1 equity share of Rs. 10 each as approved by the shareholders in the year 2006 and before Sub-division of each of the equity shares of Rs. 10 each into 10 equity shares of Re. 1/- each as per record date of February 28, 2014.

Further, for the purpose of valuation of the options granted during the year 2005 under R Systems International Ltd. - Year 2004 Employee Stock Option Plan, the management obtained fair value of the options at the date of grant from a firm of Chartered Accountants, to determine accounting impact, if any, of options granted. In the considered opinion of the valuer, the fair value of these options determined using 'Black Scholes Valuation Model' is "Nil" and thus no accounting thereof is required.

The assumptions used by the valuer for the purpose of determination of fair value are stated below:

Assumptions	Unit	Scheme	Comments by the valuer
Strike price	Rs.	42	
Current share price	Rs.	13.58	Taken on the basis of NAV and PECV method of valuation.
Expected option life	No. of Years	5	Being half of the maximum option life.
Volatility	%	1	In case of unlisted shares, the volatility may be taken as zero. Verma committee also recommends this.
Risk free return	%	7.42	Zero coupon rate estimated from trading government securities for a maturity corresponding to expected life of option - taken from sites of NSE.
Expected dividend Yield	%	-	Company has no set policy so dividend taken as zero.

The above information is based on Rs. 2 per share prior to consolidation of 5 equity shares of Rs. 2 each into one equity share of Rs. 10, subsequent allotment of bonus shares in the ratio of 1 : 1 and sub-division of each of the equity shares of Rs. 10 each into 10 equity shares of Re. 1/- each as per record date of February 28, 2014.

For the purpose of valuation of the options granted during the year ended December 31, 2007 under R Systems International Limited Employee Stock Option Scheme 2007, the compensation cost relating to Employee Stock Options, calculated as per the intrinsic value method is nil.

The management obtained fair value of the options at the date of grant from a firm of Chartered Accountants. In the considered opinion of the valuer, the fair value of these options determined using 'Black Scholes Valuation Model' is "Rs. 50.73" per option.

The assumptions used by the valuer for the purpose of determination of fair value are stated below:

Assumptions	Unit	Scheme	Comments by the valuer
Strike price	Rs.	120.70	
Current share price	Rs.	118.50	Price on the date of grant by Board of Directors i.e. closing price on July 11, 2007.
Expected option life	No. of Years	4	Being the vesting period.
Volatility	%	44	On the basis of industry average.
Risk free return	%	7	Zero coupon rate estimated from trading government securities for a maturity corresponding to expected life of option -taken from sites of NSE.
Expected dividend Yield	%	0.86	Company has declared Dividends of 12% in the past. Assuming that it will continue declaring similar dividends in future.

The above information is based on Rs. 10 per share before sub-division of each of the equity shares of Rs. 10 each into 10 equity shares of Re. 1/- each as per the record date of February 28, 2014.

For the purpose of valuation of the options granted during the year ended December 31, 2016 under R Systems International Limited Employee Stock Option Scheme 2007, the year to date compensation cost relating to Employee Stock Options, calculated as per the intrinsic value method is Rs 2,589,490.

The management obtained fair value of the options at the date of grant i.e. April 30, 2016 from a firm of Chartered Accountants. In the considered opinion of the valuer, the weighted average fair value of these options determined using 'Black Scholes Valuation Model' is "Rs. 49.89" per option.

The assumptions used by the valuer for the purpose of determination of fair value are stated below:

Assumptions	Unit	Scheme	Comments by the valuer
Strike price	Rs.	12.07	
Current share price	Rs.	61.45	Price on the date of grant by Board of Directors i.e. closing price on April 30, 2016.
Expected option life	No. of Years	4	Being the vesting period.
Volatility	%	55.32-55.83	On the basis of industry average.
Risk free return	%	7.84	The yield on a Treasury bond by Government of India (Source: RBI) on the valuation date with the tenor matching the remaining term of the stock options.
Expected dividend Yield	%	1.32	Assuming that the Company will continue declaring at similar rate, consistent with past years.

The above information is based on per equity share having face value of Re. 1/- each.

The stock based compensation cost calculated as per the intrinsic value method for the financial year 2016 was Rs. 2,589,490 (Previous year nil). If the stock based compensation cost was calculated as per fair value method prescribed by SEBI, the total cost to be recognised in the financial statements for the year 2016 would be Rs. 2,617,180 (Previous year nil). The effect of adopting the fair value method on the net income and earnings per share is presented below:

There are no significant events, changes occurred between the end of the financial year and till the date of this report which would materially affect the financial position of the Company.

12. Particulars of Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

The particulars as prescribed under Section 134 (1) (m) of the Companies Act, 2013, read with rule 8 of Companies (Accounts) Rules, 2014 for the year ended December 31, 2016 are as follows:

A. Conservation of Energy

Though your Company does not have energy intensive operations, every endeavor has been made to ensure the optimal usage of energy, avoid wastage and conserve energy.

During the year ended December 31, 2016 R Systems continued its action plans to curtail the energy bills by adopting various energy conservation options / technologies as identified by Federation of Indian Chambers of Commerce & Industry ("FICCI") through a detailed Energy Audit carried out by FICCI for R Systems Noida operations in the year 2007.

Significant measures were taken to reduce energy consumption by using energy efficient equipment and devices. R Systems constantly evaluates new technologies and makes appropriate investments to be energy efficient. Currently, the Company uses LED/CFL fittings and electronic ballasts to reduce power consumption of fluorescent tubes. The air is conditioned with energy efficient compressors for central air conditioning and with split air conditioning for localized areas.

R Systems is always in search of innovative and efficient energy conservation technologies and applies them prudently. However, R Systems being in the software industry, its operations are not energy intensive and energy costs constitute a very small portion of the total cost, therefore, the financial impact of these measures is not material.

B. Technology absorption

1. Efforts made towards technology absorption

The Company has established practice streams in specific technologies to analyze their implications and the benefits they can provide to the Company's customers. These steps enable the Company to find and execute the most appropriate solutions for its clients.

2. Benefits derived as a result of the above efforts

The benefits derived from the above mentioned efforts are fulfilling customer needs, efficiency in operations, improvement in quality and growth in revenues.

3. Technology imported during the last 3 years

Not applicable, as no technology has been imported by the Company.

4. Expenditure incurred on Research and development

Driven by our core value of innovation, we believe that innovation is not just a practice but an essential component embedded within R Systems organizational DNA. We are now operating in a digital world. CORPORATE GOVERNANCE

Report on Corporate Governance

1. Company's Philosophy on Corporate Governance

R Systems International Limited ("R Systems" or the "Company" unless context otherwise provide) is committed to conduct its business in compliance with the applicable laws, rules and regulations and with the highest standards of business ethics. We, at R Systems, believe that good Corporate Governance is a key contributor to sustainable corporate growth and creating superior value for our stakeholders. It is primarily concerned with transparency, accountability, fairness, professionalism, social responsiveness, complete disclosure of material facts and independence of Board. R Systems endeavours its best to constantly comply with these aspects in letter and spirit, in addition to the statutory compliances as required under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") read with Uniform Listing Agreement entered into by the Company with the National Stock Exchange of India Limited and BSE Limited ("Stock Exchanges").

2. Board of Directors

- i. R Systems has an optimum combination of executive and non-executive directors on its Board of Directors ("Board").

As at December 31, 2016, the Board comprised of five directors, i.e. two executive directors out of which one is promoter director designated as Managing Director and three non-executive independent directors. All the existing non-executive independent directors of the Company satisfy the criteria of independence as defined under the provisions of the Companies Act, 2013 ("the Act") and the Listing Regulations.

The total number of independent directors has been at least 50% of the total strength of the Board at all times during the year under review except the intermittent vacancy for sixteen days which was filled within the prescribe statutory time limits.

None of the directors of the Company is a committee member or a chairperson of any committee in any other company in India. None of the non-executive independent directors of the Company hold any shares in the Company. Necessary disclosures regarding directorship and committee positions in other companies and shareholding as of December 31, 2016 have been made by the directors.

Except the Managing Director and the Independent Directors, other directors are liable to retire by rotation as per Articles of Association of the Company read with the provisions of the Companies Act, 2013.

The names and categories of the directors on the Board and their attendance at the Board meetings held during the year under review are as follows:

POLICY FOR SELECTION AND APPOINTMENT OF DIRECTORS AND THEIR PERFORMANCE EVALUATION AND REMUNERATION POLICY

CRITERIA FOR SELECTION OF CANDIDATES FOR MEMBERSHIP ON THE BOARD OF DIRECTORS

General Criteria

Director should have appropriate skills, experience and other characteristics so that qualified persons fill at Board and its committees positions in pursuit of achieving Company's objectives and Corporate Excellence. Each director should:

- be an individual of the highest integrity and have an inquiring mind, a willingness to go into details and the ability to work well with others;
- be free of any conflict of interest that would violate any applicable law or regulation or interfere with the proper performance of the responsibilities of a director;
- be willing and able to devote sufficient time to the affairs of the Company and be diligent in fulfilling the responsibilities of a director and Board committees' member; and
- have the capacity and desire to represent the best interests of the stakeholders as a whole.

Specific Criteria

In addition to the aforesaid, the Nomination & Remuneration Committee may, if it deems it advisable from time to time, develop specific criteria outlining the skills, experience, expertise, backgrounds, and other characteristics that should be represented on the Board to enhance its effectiveness. Any such criteria should take into account the particular needs of the Company based on its business, size, ownership, growth objectives, community, customers and other characteristics and should be adjusted as these Company characteristics evolve.

PERFORMANCE EVALUATION

In terms of the provisions of the Companies Act, 2013, Listing Regulations and as per the recommendation of the Nomination & Remuneration Committee, Board has adopted a formal mechanism for evaluating its performance, as well as that of its committees and individual directors. The exercise was carried out through a structured evaluation process covering various aspects of the Boards functioning such as composition of the Board & Committees, experience & competencies, leadership attribute of the directors through vision and values, strategic thinking and decision making, commercial and business acumen, contribution to resolution of divergent views, proactive participation, time commitment teamwork skills and adequacy of business strategy.

REMUNERATION POLICY

The remuneration policy of the company reflects the Company's objectives for good corporate governance as well as sustained long-term value creation for shareholders and guided by a common reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Companies Act, 2013, inter-alia principles pertaining to determining qualifications, positive attributes, integrity and independence etc. Remuneration policy of R Systems is as follows:

Executive Directors' Remuneration

1. At the time of appointment or re-appointment, Managing Director and the Executive Directors of the Company i.e. Whole Time Director as defined in the Companies Act, 2013 by whatever name may be called (hereinafter known as Executive Directors) shall be paid such remuneration as may be proposed by Nomination & Remuneration Committee and subsequently approved by the Board of Directors within the overall limits prescribed under the Companies Act, 2013.
2. The remuneration shall be subject to the approval of the Members of the Company at its General Meeting, wherever required under the provisions of the Companies Act, 2013 and rules made there under or under the provision of any other laws as may be applicable.
3. The remuneration of the Executive Directors is broadly divided into fixed and variable components. The fixed component comprises salary, allowances, perquisites, amenities and retiral benefits. The variable component comprises performance bonus and may include:

- Short-term incentives, based on the achievement of a number of individual, pre- defined financial and strategic business targets recommended by the Committee.
 - Long-term incentives in the form of stock options, promoting a balance between short-term achievements and long-term thinking. The Directors shall be eligible to participate in the stock options only subject to the compliance of the conditions under the provisions of the Companies Act, 2013, Listing Regulations and the other Rules/ Regulations as prescribed by the Securities & Exchange Board of India (SEBI) in this regard.
 - Pension contributions, made in accordance with applicable laws and employment agreements.
 - Severance payments in accordance with termination clauses in employment agreements and subject to the provisions of the Companies Act, 2013 and other applicable laws.
4. In determining the remuneration (including the element as defined in clause 3) the Nomination & Remuneration Committee shall ensure / consider the following:
- I. Remuneration shall be evaluated annually against performance and a benchmark of international companies, which in size and complexity are similar to R Systems.
 - II. Balance between fixed and incentive pay reflecting short and long term performance objectives, appropriate to the working of the Company and its goals.
 - III. Responsibility required to be shouldered by the Executive Directors, the industry benchmarks and the current trends.
 - IV. The Company's performance vis-à-vis the annual budget achievement and individual performance vis-à-vis the KRAs / KPIs.
5. Minimum remuneration to Executive Directors

If, in any financial year, the Company has no profits or its profits are inadequate, the company shall pay remuneration to its Executive Directors in accordance with the provision of the Companies Act, 2013 and rules made thereunder.

Remuneration policy for the senior management employees

In determining the remuneration to Key Managerial Personnel and other employees the Nomination and Remuneration Committee shall ensure / consider the following:

- I. the relationship of remuneration and performance benchmark is clear;
- II. the balance between fixed and incentive pay reflecting short and long term performance objectives, appropriate to the working of the Company and its goals;
- III. the remuneration is divided into two components viz. fixed component comprising salaries, perquisites and retirement benefits and a variable component which comprises performance bonus and may include:

- Short-term incentives, based on the achievement of a number of individual, pre-defined financial and strategic business targets recommended by the Committee.
 - Long-term incentives in the form of stock options, promoting a balance between short-term achievements and long-term thinking, in accordance to various applicable laws.
 - Pension contributions, made in accordance with applicable laws and employment agreements.
 - Severance payments in accordance with termination clauses in employment agreements. Severance payments shall comply with local legal framework.
- IV. the remuneration including annual increment and performance bonus is decided based on the criticality of the roles and responsibilities, the Company's performance vis-à-vis the annual budget achievement, individuals performance vis-à-vis KRAs / KPIs, industry benchmark and current compensation trends in the market. The Benchmark information is obtained from internationally recognized compensation service consultancies, whenever required.

The aforesaid subsidiary have down subsidiaries:

defines digital transformation as the continuous process by which enterprises adapt to or drive disruptive changes in their customers and markets (external ecosystem) by leveraging digital competencies to innovate new business models, products and services that seamlessly blend digital and physical, and business and customer experiences while improving operational efficiencies and organizational performance.

As per NASSCOM Perspective 2025 – Shaping the Digital Revolution, the digital innovators are disrupting the traditional business models across industries and may capture up to 25 percent of revenue pools by 2025. The enterprises are investing on digital technologies that support operating model innovations.

Further, IT industry is also witnessing challenges from the change in geopolitical scenario like Brexit and recent USA election. However, digital transformation is providing once-in-generation opportunity to product engineering companies to partner businesses to maximize their potential with technology.

As at December 31, 2016, R Systems is maintaining fifteen global development and service centres in India, USA, Romania, Poland, Moldova, Singapore, Malaysia, Indonesia and Thailand. R Systems diversified offering includes:

iPLM Service

R Systems defines its product engineering business as Integrated Product Life Cycle Management (iPLM) services where R Systems help ISV and other companies to accelerate the speed to market

for their products and services with a high degree of time and cost predictability by using our proprietary pSuite framework and global delivery model.

Under iPLM Services, R Systems delivers services and solutions in the area of Information Technology and Information Technology enabled services (ITeS). The IT services cover product development, systems integration and support and maintenance. Under the ITeS, we cover technical support, customer care, analytics service, back office services, business process transformation and revenue and claims management.

R Systems competitive advantage in iPLM Services is further enhanced by its industry specific domain expertise, global delivery capabilities, multi-language support capabilities, industry best quality and security certification and agile development methodologies supported by R Systems' proprietary pSuite framework.

Solution Offerings

ECnet Supply Chain provide solutions for holistic management of the complex interaction between an organisation and its trading partners. The integrated solution aims to reduce all supply chain costs through improved collaboration and optimisation. The solutions are robust and scalable and give measurable ROI to clients that meet the clients' strategic business goals.

ECnet also operates as a Gold Channel Partner for one of the largest business software companies in the world to resell, implement and support enterprise solutions of ERP, WMS, Service Management, BI and Performance Management. It mainly serves small to medium-sized businesses in the manufacturing and distribution industries. These products present an opportunity to cross and up sell these solutions since these are adjunct to ECnet's own product offerings. Further, ECnet has signed a Master Alliance Agreement with JDA to offer the category management solution suite to retail customers in Singapore, Malaysia and Thailand.

Our subsidiary IBIZ, is a Microsoft Gold Channel Partner and is specialized in deploying Microsoft business management solution suites, including enterprise resource planning, customer relationship management, point of sales, mobility, business intelligence and portals. IBIZ addresses industry vertical like retail, manufacturing and supply chain.

R Systems focused on key verticals i.e. Telecom & Digital Media, Banking and Finance, Healthcare, Manufacturing & Logistics and Retail & E-Commerce. Telecom and Digital Media is the largest industry vertical which contributes ~29 percent of the total consolidated revenue for the year ended December 31, 2016.

Further with the deep expertise in the key vertical like Telecom & Digital Media, Banking and Finance, Healthcare, Retail and E-Commerce, R Systems have horizontally embraced digital technologies like analytics, cloud computing, mobility, IoT etc to further strengthen its product engineering capabilities.

R Systems’ rapidly growing customer list includes a variety of Fortune 1000, government and mid-sized organizations across a wide range of industry verticals and has served twenty one, mn USD + customer during the year 2016.

C. Opportunities and Threats

IDC forecasts worldwide spending on digital transformation technologies to be more than USD 1.2 trillion in 2017, an increase of 17.8% over 2016. IDC expects digital spending to maintain this pace with a compound annual growth rate (CAGR) of 17.9% over the 2015-2020 forecast period and reaching USD 2.0 trillion in 2020.

IDC also anticipates that more than half of all digital investments in 2017 will go toward technologies that support operating model innovations. These investments will focus on making business operations more responsive and effective by leveraging digitally-connected products/services, assets, people, and trading partners. Investments in operating model help businesses redefine how work gets done by integrating external market connections with internal digital processes and projects. The second largest investment area will be technologies supporting omni-experience innovations that transform how customers, partners, employees, and things communicate with each other and the products and services created to meet unique and individualized demand.

R Systems has been constantly investing in building digital competencies like analytics, cloud, mobility and IoT. Leveraging product engineering DNA and deep industry competencies, R Systems is well positioned to be a technology partner navigating ISVs and businesses in their digital transformation.

Every opportunity comes up with inherent risk and challenges. However, over the years, R Systems has learnt to reckon with as

well as address such risks and challenges including threats from competitors including their disruptive tactics, new technologies, intensifying demand for global talent, retention of employees and stringent governing norms regarding restrictions on outsourcing services. At R Systems, these threat and uncertainties are managed proactively through our risk mitigation processes and strategies.

D. Segment-wise Performance

Detailed information about segment-wise performance has been given in the Consolidated Financial Statements and Standalone Financial Statements.

E. Performance and Outlook

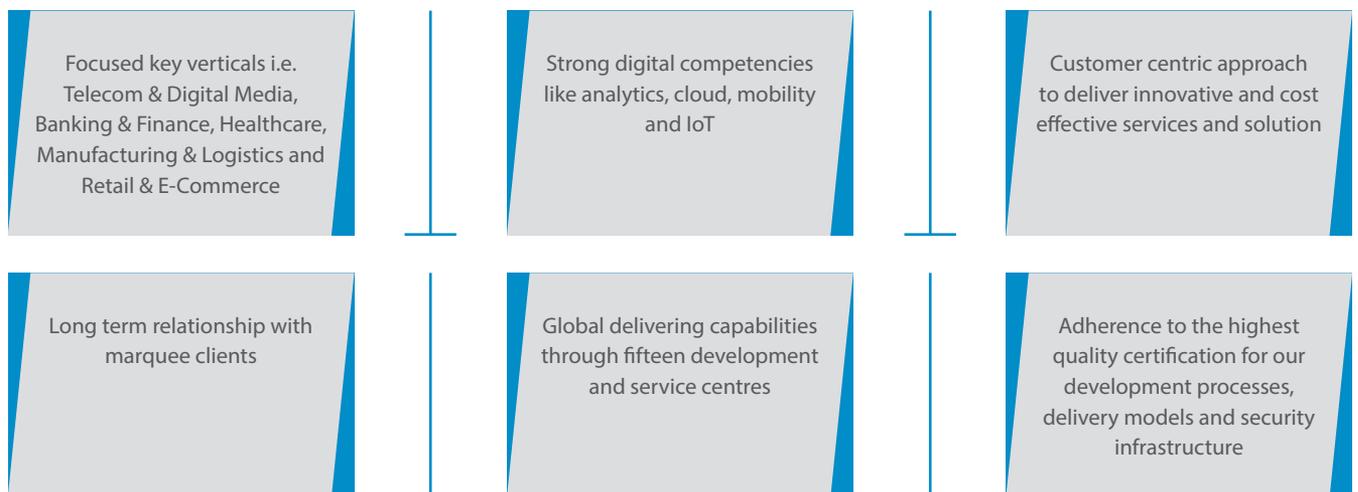

R Systems’ reported consolidated revenue of Rs. 5,882.37 mn during the year 2016 as against revenue of Rs. 6,050.32 mn for the year 2015. During 2015, we realigned our focus to IT services business and divested Indus Business Division. The revenue grew by 7.5% during the year 2016 excluding the impact of this divestment.

Consolidated profit after tax during the year 2016 was Rs. 536.88 mn as against net profit for year 2015 of Rs. 978.29 mn. Excluding exceptional items, the profit grew by 15.3%.

R Systems is well positioned to leverage the following factors which are key to its differentiated strategy for growth in the marketplace:

F. Risk and Concerns

At R Systems risk management is a dynamic process with an attempt to constantly identify all the emerging risks and propose solutions to manage these. This is further explained in detail in Risk Management Report.

G. Internal Control Systems and Their Adequacy

Internal control systems are a set of policies, processes and procedures put in place to help achieve the strategic objectives of an organization. The Company has an Internal Control System commensurate with the size, scale and complexity of its operations. This has been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorised use, executing transactions with proper authorisation and ensuring compliance of corporate policies.

The CEO/CFO certification provided in this report places responsibility on the CEO and CFO to continuously ensure adequacy of our internal control systems and procedures.

S.R. Batliboi & Associates LLP, the statutory auditors of the Company, have audited the financial statements included in this annual report and have issued an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

H. Material Development in Human Resources / Industrial Relations Front, including Number of People Employed

Our employees are most precious assets and we value their commitment in building R Systems. In the IT and ITeS industry attracting, developing, deploying and retaining talent is critical. R Systems has also defined and implemented a People Management Initiative which is in line with industry best practices and People CMM. It effectively manages the employee life cycle so that the individuals are committed, have pride and show pro-activeness on the job.

RISK MANAGEMENT REPORT

The Management cautions readers that the risks outlined in this report are not exhaustive, are for information purposes only and may contain forward looking statements, the results of which may differ materially from those reflected. Investors and readers are requested to exercise their own judgment in assessing various risks associated with the Company.

OVERVIEW

Risk Management is a dynamic process which should constantly be able to identify all the emerging risks and propose solutions to manage them. The risk perception also constantly varies depending on the size of the business, business segment, location, scale of business. The essence of risk management strategy at R Systems lies in maximising areas of control over outcome and minimising areas where the Company has no control over outcome. R Systems recognizes that business conditions are constantly changing, evolving, and entering into cycles. Following is the model adopted by the Company for managing risk:

ENTERPRISE RISK MANAGEMENT STRUCTURE

Risk management is an integral part of the charter of the Board of Directors at R Systems. The Board is responsible for monitoring risk levels on various parameters and to suggest measures to address the same. The day to day management of the risk is entrusted to the management team of R Systems. Based on the philosophy of “No risks, No rewards”, our management continuously keeps monitoring the level of our existence on the path of growth and within R Systems

management structure, certain personnel are designated with responsibility of managing risks including ensuring compliance with laws, rules and regulations with the assistance of both internal and external resources. Further, formal reporting, escalation of risk events and control mechanisms ensure timely communication, response and proactive management of the risks.

RISK MANAGEMENT AT R SYSTEMS

1. Customer Concentration

R Systems revenues are dependent to a considerable extent upon relationships with a limited number of customers and retaining those customers. The percentage of total consolidated revenues during fiscal year 2016 and 2015 that R Systems derived from contracts with its top line customers is as follows:

Customer	Year Ended	
	December 31, 2016	December 31, 2015
	(%)	(%)
Top 10	32.56	31.14
Top 5	20.83	19.54
Top 3	14.63	14.18
The Largest Customer	6.67	6.81

Concentration of revenues from a limited number of customers deepens our relationship with those customers but at the same time imposes a risk of dependence. Customer’s vendor management strategies and business risks radiate on to R Systems through fluctuations in utilization, pricing for services and service level demands. All these factors could potentially impact revenues and profitability of R Systems.

INITIATIVES: The business model and strategy followed by R Systems involves serving the customers in a manner that they get measurable tangible benefits. When customers see value in the services / solutions that R Systems provides, we believe that customer’s relationship can be nurtured into the long term. Further, with our proactive strategy of adding new customers, we attempt to reduce our dependency on a smaller number of customer relationships.

2. Geographical Concentration

R Systems has traditionally derived most of its revenues from the US, given the technology focus and specialized outsourced product development services offered by it. The geographic break-up of the revenue is given below:

Revenues by Geographies	Year Ended	
	December 31, 2016	December 31, 2015
	(%)	(%)
U.S.A.	59.17	57.98
Europe	17.98	14.84
SEAC	17.68	16.86
India	1.61	5.27
Others	3.56	5.05
Total	100	100

INITIATIVES: In order to mitigate the risk of geographical concentration, R Systems has stepped up its business activities in other geographic areas like Europe, South East Asia etc.

3. Risks Associated with Fixed Price Contracts

Under our IPLM services most of our assignments are on the basis of time and material task orders, some proportion of the services provided by us is in the nature of fixed bid assignments. Under fixed bid assignments, in the event of cost overruns, our profitability will be adversely affected.

INITIATIVES: We have our internal processes to ensure accuracy in the estimation of the time required to execute fixed price projects, and processes to implement and monitor the progress of such projects. Further, the experience gained from such projects is also used for new projects. However given the very nature of the fixed price projects, cost overruns and delayed deliveries cannot be ruled out.

4. Competition

The IT & ITES sector is a highly competitive sector. Our competitors include IT outsourcing firms in India as well as in other countries, national and multinational consulting and technology firms, Indian IT services firms, software firms and in-house IT departments of large companies. The competition in the IT industry is very intense and our competitors are aggressive in winning new business and customers that may drive a harder bargain.

INITIATIVES: We believe that R Systems is well positioned and enjoys following competitive advantages:

- Experience in providing end-to-end solutions and services to customers;
- Unique and proprietary  with best practices, tools and methodologies for flawless execution;
- Investment in processes, talent and methodologies;

- Strong customer franchise consisting of large and mid-sized corporations;
- Strong financial position;
- Proven global delivery model;
- Our vertical focus for services and solutions;
- Industry best human resource practices to attract, develop, deploy and retain talent.

5. Disaster Prevention and Recovery

The IT industry is very sensitive to security risk and a real or perceived threat of a risk to the security and integrity of information available to us may adversely affect customer perception, give rise to litigation and reduce our customer base, thereby negatively affecting R Systems revenues and profit margins. The contracts entered into by R Systems typically hold us solely responsible for maintaining satisfactory standards of personnel competency, conduct and integrity and for taking required disciplinary action.

INITIATIVES: R Systems has adopted industry-standard security precautions such as ensuring that our employees and strategic partners enter into non-disclosure and confidentiality agreements with us, verifying that there is no information leakage through test procedures, carrying out background checks and verifications, creating and maintaining data back-ups, and maintaining an adequate disaster recovery plan.

R Systems makes continual investments in organisation behavior and management processes to ensure that these certified industry standards are continually adhered to.

During the year under review, all QMS artifacts of the Company have been migrated from ISO 9001:2008 to new ISO 9001:2015 standard and process wise risk assessment as per the new standard has been carried out. Noida BPO Center has been certified as PCI-DSS (ver. 3.1) compliant for the call Analytic Services provided to one of the major client.

As of the date of this report, Noida IT centre is CMMi level 5, PCMM Level 5, ISO 9001 : 2008 and ISO 27001 : 2013 certified; Noida BPO centre is PCMM Level 5, ISO 9001 : 2008, ISO 27001 : 2013 certified and PCI-DSS (ver.3.1) certified for call analytics services. The continuing compliance with these standards demonstrates the rigor of R Systems processes and differentiates us to keep our competitive edge in service and product offerings.

Further, our distributed offshore and near shore infrastructure is seamlessly connected through a strong infrastructure design and appropriate bandwidth that provides us the capability to initiate and maintain uninterrupted support across the world.

6. Talent Acquisition & Retention

The IT and BPO sector is highly competitive in terms of hiring strategy and incentives. R Systems is highly dependent on its employees at various levels of the organisation to provide leadership, manage the business, to provide services and execute complex projects for the clients. These skilled professionals are in high demand by other organisations and if R Systems is unable to attract and retain the skilled people, it will affect R Systems ability to grow and provide services to its customers.

INITIATIVES: At R Systems, we follow industry best human resource practices such as PCMM level 5 to attract, develop, deploy and retain talent. The Company is committed to develop and innovate such programmes that motivates them and develop their potential and also inculcate leadership attributes of the employees, which helps us to retain the best talent in the industry.

7. Key Managerial Role & Succession Planning

Succession planning is one of the most critical functions of an organization. This is the process that identifies the critical and core roles of an organization and identifies and assesses the suitable candidates for the same. The process ramps up potential candidates with appropriate skills and experiences in an effort to train them to handle future responsibilities in their respective roles. Succession planning is applicable for all critical roles in any organization. The upper management of each practice or department is responsible for coming up with a suitable succession plan for each core position under his or her department.

INITIATIVES: R Systems being a CMMI Level 5 and PCMM Level 5 (ver. 2.0) company has put in practice a well-documented and defined policy on Succession Planning. This applies to all key roles in the organization as agreed upon by the Senior Management. Mission critical and key roles include Chief Executive Officer, Senior Management Team comprising of VPs and other roles critical to business operations continuity. Succession planning at R Systems occurs at least on an annual basis during annual performance appraisal cycle.

Further, R Systems has extensive recruitment teams in the markets that operate to continuously recruit skilled personnel at various levels in the organisation. In addition, R Systems conducts a rigorous training program at the entry level to train new professionals and develop next generation of managers and leaders. R Systems deploys modern HR practices by offering competitive compensation and benefit packages and exciting work environment to attract and retain talent. Further, R Systems tries to mitigate the impact of attrition in the continuity of

services to the clients by using its proprietary pSuite Framework that allows the project teams to seamlessly share knowledge and collaborate on projects.

8. Technological Obsolescence

The IT and ITES sector is characterised by technological changes at a rapid rate, evolution of existing products and introduction of new products. R Systems makes investments in R&D with a view to keep pace with the latest developments in the technology space. Further, R Systems regularly hires, trains and nurtures domain and market specialists and continuously evaluates increasing the portfolio of technology alliances and partnerships to enrich our product and service mix. However, this risk cannot be fully mitigated despite the proactive investments made by R Systems.

INITIATIVES: While we continuously upgrade our product suite to deliver effectively by keeping our technology up-to-date, in our iPLM business, our technologies are influenced by our client's choice of technology.

9. Acquisitions

R Systems' growth strategy involves future strategic acquisitions, partnerships and exploration of mutual interests with other parties. These future acquisitions may not contribute to our profitability, and we may be required to incur or assume debt, or assume contingent liabilities, as part of any acquisition. We could have difficulty in assimilating the personnel, operations, software assets and technology of the acquired company. These difficulties could disrupt our ongoing business, distract our management and employees and increase our expenses.

INITIATIVES: R Systems will remain sharply focused on those acquisitions and partnerships that add to the competitive strengths of our business. Specific transactions are evaluated in detail with experienced internal personnel and external advisors, wherever relevant, before consummating any transaction. Deal teams conduct technical, operational, marketing due diligence and build detailed financial model to evaluate the risks and benefits of any transaction. Further, contractual agreements are negotiated with the advice of legal counsel to protect Company's interests.

10. Credit Risk

As a matter of business practice, the payment collection process may extend over a period of time. Customers budgeting constraints can impact their ability to make the required payments. In addition, the creditworthiness of our clients may deteriorate and we can be adversely affected by bankruptcies or other business failures of our customers.

INITIATIVES: R Systems' credit terms are standard and there is rigorous process in following up with customers for payments as and when the invoices fall due for payment. The Company has suitably streamlined its processes to develop a more focused and aggressive receivables management systems to ensure timely collections as a result of the global liquidity crunch.

11. Foreign Currency Rate Fluctuations

Managing an equilibrium state in the light of the unfavourable movements in exchange rates involved in earnings and expenditure in foreign currency continues to be one of the challenges when exposed to global markets. A significantly large percentage of R Systems consolidated revenues are either foreign currency denominated or derived from export earnings. Whereas a major portion of the R Systems expenses in India are incurred in Indian Rupees. As a result, operating profits will be highly impacted by foreign currency rate fluctuations. While depreciation of the Indian Rupee would have a favorable bottom-line impact, an appreciation would affect R Systems profitability adversely.

INITIATIVES: R Systems cannot directly influence exchange rates, it is incumbent upon management to follow a well thought out policy to hedge the risk associated with foreign currency without taking speculative positions. R Systems attempts to minimize currency fluctuation risks on export earnings by taking forward covers on Rupee - USD/EURO exchange rate based on anticipated revenues and debtors at periodic intervals. R Systems has laid down appropriate policies and processes for the use of financial derivative instruments consistent with its risk management strategy. The Company does not use the foreign exchange forward contracts for trading or speculation purposes.

12. Inflation and Cost Structure

R Systems' cost structure consists of salary and other compensation expenses, overseas travel, and other general selling and administrative costs. Rapid economic development in India and increasing demand for global delivery may have a significant impact on these costs and the rate of inflation as relevant to the IT & ITES services industry. This is compounded by the fact that overseas competitors may treat their India strategy as a cost centre and develop the same regardless of the cost incurred and its impact on their profitability.

INITIATIVES: R Systems' major costs are salary and benefit cost that it incurs on employees. These costs may have a tendency to escalate faster than the rate of inflation because of the demand for skilled and experienced professionals. R Systems attempts to mitigate the risks associated with wage inflation by obtaining increased price from clients, increasing bench mark prices for

new business, enhancing productivity, increasing utilisation and inducting fresh graduates and training them. Further, R Systems has implemented robust processes and information systems to enable personnel to make the right decisions for revenue realisation and cost optimisation to minimise the risks of changes in salary cost structure.

13. Intellectual Property Rights

As a part of R Systems' business, there are risks associated with intellectual property of the Company, intellectual property of R Systems' customers who may be end users or even the intellectual property of the end user.

INITIATIVES: R Systems' information security arrangements are managed under international standard ISO 27001 : 2013 series and are being audited by both internal and experts from third parties assessors who periodically audit and certify R Systems compliance.

R Systems has not registered some of its intellectual property under the relevant intellectual property laws and is in the process of applying for the same. We have applied for the registration of the following marks and their corresponding words as R Systems' trade marks:

PSuite Framework

PRODUCTS FOREMOST

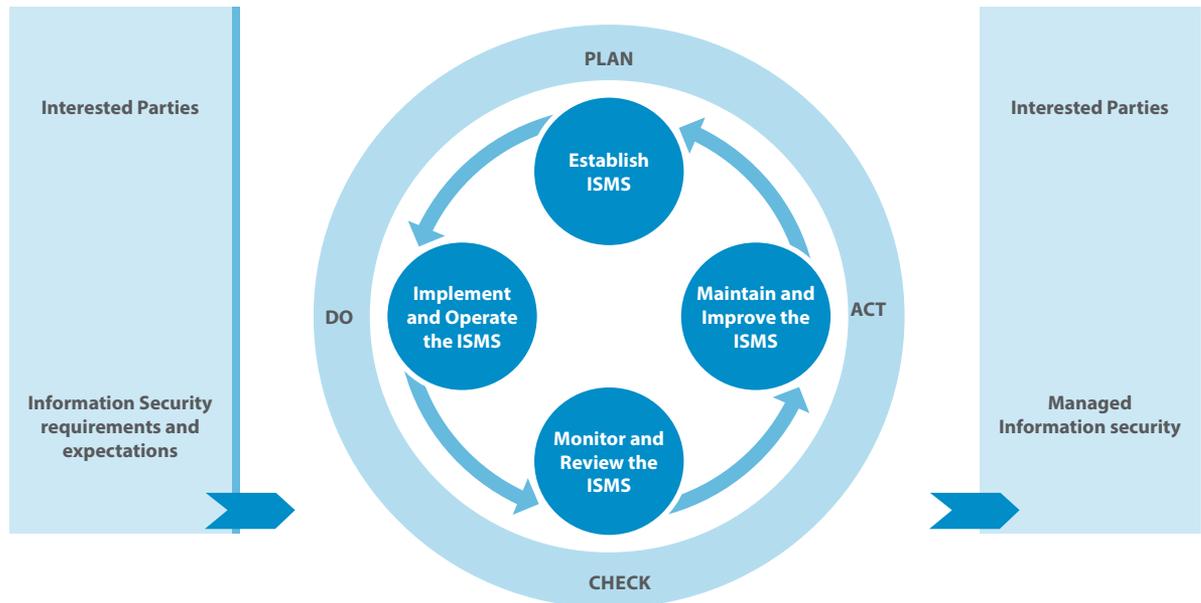

IPLM

Out of the aforesaid trademarks three logo and two words are already registered w.e.f. January 30, 2006 and the word "IPLM" is awaiting approval. Further, the Company has registered the word "R SYSTEMS" and logo  as trademark under certain additional classes. During the year 2014, the Company has also filed application for  registration as its new corporate logo under relevant classes. All these new applications filed in the year 2014 are awaited for the approval.

14. Information Security Management

R Systems being an IT and Software service provider company focusses on maintaining the confidentiality, integration and availability of business data and information to the exclusive but optimum use for the accomplishment of organizational objective. The task of maintaining the confidentiality of business data and information not only faces threat from outside the organization but also within the organization where the business data and information are put to use.

INITIATIVES: For ensuring the effectiveness of Information security, it is important that information security can be effective only if it is addressed at people, process and technology levels and is integrated in the way an organization operates. R Systems has established, documented and implemented Information Security Management Systems (ISMS) and shall continually improve its effectiveness in accordance with requirements of ISO 27001:2013. The approach applied to the ISMS is given in Figure below:

R Systems security policy provides a framework for protecting confidentiality, integrity and ensuring availability of organization’s Information assets. This is to safeguard the interest of customer, business continuity and continual improvement of ISMS at R Systems. The security policy of R Systems has been designed to safeguard the risk associated with information security management.

15. Contractual Risk

The primary contractual risks that R Systems faces pertain to obligations of R Systems to provide services with full adherence to contracted terms of quality, time deadlines, output per hour, protection of confidential information, protection of intellectual property rights, patents and copyrights. R Systems has a rigorous process to evaluate the legal risks involved in a contract, ascertains its legal responsibilities under the applicable law of the contract and tries to restrict its liabilities to the maximum extent possible.

INITIATIVES: R Systems attempts to protect itself with “no consequential losses” and “maximum liability” clauses.

R Systems also ensures that risks are protected through various insurances like professional liability, workers compensation, directors’ and officers’ liability insurance. The Company’s past record in this regard has been good and there has been no significant damages awarded against the Company that has

resulted in material adverse impact on our financial position. R Systems also has an escalation process to immediately involve senior management personnel in case R Systems customers or contractors make any assertion of breach of contract.

R Systems has employed professionals with adequate legal expertise who plays handy role in finalizing the various terms under written contracts on behalf of the Company. The experience gained from past contracts and transaction entered into by the Company are also analyzed and implemented for the new contracts envisaged by the Company. As a matter of practice depending upon the criticality of the transactions, contractual agreements are well discussed within the organization in coordination with technical team as well legal professionals and are also negotiated with the advice of legal counsel to protect Company’s interests.

16. Execution Risk

A significant number of R Systems clients are software product, large banking and manufacturing companies. These clients need high quality and timely delivery of services with very stringent services level agreements. Any failure in delivery, quality, meeting service level bench agreements, product features and functionalities could adversely affect R Systems relationship with its clients, which could potentially impact R Systems revenues and profitability.

INITIATIVES: R Systems has continuously invested in processes, people, training, information systems, quality standards, frameworks, tools and methodologies to mitigate the risks associated with execution of projects. Adoption of quality models and practices such as ISO, Capability Maturity Model (CMM) and Six Sigma have ensured that risks are identified and mitigated at various levels in the planning and execution process. Further, senior management personnel, project managers and process leaders are entrusted with the responsibility to meet the project and service level expectations on various engagements. Planned intervention and escalation systems are further deployed to minimise risks.

17. Directors' and Officers' Liability Risks

The directors and officers of R Systems are required to take material decisions in the best interest of the Company. Such decisions might result in errors and omission and R Systems might be sued by the other counterpart.

INITIATIVES: To mitigate this risk, the directors and officers take legal and expert advice when required and have taken various insurance policies outlined earlier including professional liability and directors' and officers' liability insurance. The Company attempts to limit its contractual liability for damages arising from negligent acts, errors, mistakes or omissions by directors and officers in rendering services, there can be no assurance that the limitations of liability set forth in its service contracts will be enforceable in all instances or will otherwise protect the Company from liability for damages. Though the Company maintains general liability insurance coverage, including coverage for errors or omissions, going forward, there can be no assurance that such coverage will be available on reasonable terms and in sufficient amount to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. The successful assertion of one or more large claims against the Company could adversely affect the Company's results of operations and financial condition.

18. Statutory Compliance

R Systems has trans-national operations. R Systems operates in various geographies and it has to ensure compliance of various applicable rules and regulations in those countries. R Systems is exposed to penalties and other liabilities related to non-compliance or inadequate compliance in those countries.

INITIATIVES: R Systems uses independent legal counsel to advise the Company on compliance issues with respect to the laws of various countries in which the Company has its business activities and to ensure that R Systems is not in violation of the laws applicable. R Systems has a compliance management system with qualified managers entrusted with compliance of various laws including the listing laws and regulations applicable to public companies in India.

19. Visa Regulations / Restrictions

The majority of employees of R Systems are Indian nationals. The ability of R Systems to render its services in the US, Europe and other countries depends on the ability to obtain visas and work permits. Immigration to US, Europe and other countries are subject to legislative changes as well as variations in standards of application and enforcement due to political forces and economic conditions for example, any major change in immigration policy of USA may put the challenge to Indian IT Companies. It is difficult to predict the political and economic events that could affect immigrations laws or the restrictive impact they could have on obtaining or monitoring work visas. The reliance on visas makes R Systems vulnerable to such changes and variations as it affects the ability of the Company to staff projects with employees who are not citizens of the country where the work is to be performed. As a result, R Systems may not be able to get a sufficient number of visas for employees or may encounter delays or additional costs all of which may affect profitability.

INITIATIVES: R Systems monitors the status of visa availability and requirements on a regular basis in consultation with external legal counsel. In house legal personnel are entrusted with the responsibility for compliance with the immigrations laws which is validated by periodic independent audit. R Systems may expand its business in other geographies to de-risk from US business meanwhile it may boost US hiring. R Systems may look forward to change its business models so that it can deliver from different locations globally through innovation.

20. Political Risk

The Government of India has been favorably disposed towards the IT and BPO industry in India. Further, we operate in multiple countries of which the US is a major market. While most governments in the countries where we operate are in favor of free trade, we cannot be immune to changes in policies that may discourage off-shoring to protect local employment.

FINANCIAL STATEMENTS (STANDALONE)

INDEPENDENT AUDITOR'S REPORT

To the Members of R Systems International Limited

Report on the Financial Statements

We have audited the accompanying standalone financial statements ("financial statements") of R Systems International Limited ("the Company"), which comprise the Balance Sheet as at December 31, 2016, the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the

reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at December 31, 2016, its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

ANNEXURE TO THE AUDITOR'S REPORT

Annexure 2 to the Independent Auditor's Report of Even Date on the Financial Statements of R Systems International Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of R Systems International Limited ("the Company") as of December 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at December 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES to the Financial Statements for the year ended December 31, 2016

1. Corporate information

R Systems International Limited (the 'Company') is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on National Stock Exchange of India Limited and BSE Limited. The Company is a leading global provider of IT solutions and Business Process Outsourcing (BPO) services. The Company's primary focus is to provide full service IT solutions, software engineering services, technical support, customer care and other IT enabled services to independent software vendors (ISV's), telecom and digital media technology companies, banking and financial services companies, health care sector, manufacturing and logistics companies and other high technology sectors.

2. Basis of preparation

The financial statements comprising of balance sheet, statement of profit and loss, cash flow statement and notes to accounts have been prepared to comply in all material respects with the accounting standards notified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India. The financial statements have been prepared on an accrual basis and under the historical cost convention except for certain financial instruments which are measured at fair value. The accounting policies have been consistently applied by the Company and are consistent with those used in previous year.

The Company continues to follow calendar year i.e 1st day of January to 31st day of December as its financial year vide the Company Law Board approval dated November 18, 2015 under the proviso to Section 2(41) of the Companies Act, 2013.

All figures are in Rupees except where expressly stated.

2.1. Summary of significant accounting policies

(a) Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. These estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

(b) Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal

proceeds and the carrying amount of the assets and are recognised in the statement of profit and loss when the asset is derecognised.

(c) Depreciation on tangible fixed assets

Depreciation on tangible assets including investment property is provided on the straight line method based on useful lives of respective assets as estimated by the management. The assets residual values and useful lives are reviewed at each financial year end or whenever there are indicators for review, and adjusted prospectively.

Considering the applicability of Schedule II, the management has re-estimated useful lives and residual values of all its fixed assets. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets and are in align with Part C of Schedule II of the Companies Act 2013. (also refer note 34)

The estimated useful lives of the tangible fixed assets followed by the Company in preparing the financial statements are described as below:

Category of tangible fixed assets	Estimated useful life
Buildings	30 years
Land – leasehold	Lease period
Leasehold improvements	Lower of lease period or useful life
Plant and machinery - other than air conditioners	15 years
Air conditioners	5 years
Office Equipment (other than end user devices)	5 years
Computer hardware and network installations (other than end user devices)	6 years
End-user devices such as desktop, laptop, mobile phones etc.	3 years
Furniture and fittings	10 years
Vehicles	8 years
Electrical Installations	10 years

(d) Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

After impairment, tangible assets/intangibles are depreciated/amortised on the revised carrying amount over its remaining useful life.

(e) Intangibles assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

Intangible assets are amortised on a straight line basis over the estimated useful economic life and are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern. Such changes are accounted for in accordance with AS 5 Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognised as an intangible asset when the company can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- Its intention to complete the asset
- Its ability to use or sell the asset
- How the asset will generate future economic benefits
- The availability of adequate resources to complete the development and to use or sell the asset
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised on a straight line basis over the period of expected future benefit from the related project. Amortisation is recognised in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

A summary of amortisation policies applied to the company's intangible assets are as below:

Category of intangible fixed assets	Estimated useful life
Computer software	Lower of license period or 3 years
Internally generated software	4 years

(f) Leases

Where the company is lessee

Finance leases, which effectively transfer to the Company substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the lower of the fair value of lease property and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are recognised as finance cost in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs are capitalised.

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the company will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term.

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Where the company is the lessor

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included under non-current investments as investment property and are carried at cost less accumulated depreciation. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss.

(g) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Non-current investments are carried at cost except for investment property which is carried at cost less accumulated depreciation. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the non-current investments.

(h) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Rendering of services

Revenue from software development and maintenance services projects comprise income from time-and-material and fixed-price contracts.

Revenue with respect to time and material basis is recognised when services are rendered. The same is calculated based on man-hours incurred for rendering services.

Fixed-price contracts vary in duration depending on the terms of the work being performed. Revenue from fixed price contracts (including maintenance and support contracts) is recognised using the percentage of completion method, when reasonable progress has been made on the milestones achieved as specified in the contracts. The stage of completion of project is determined by the proportion that contract efforts incurred for work performed up to the balance sheet date bear to the estimated total contract effort. Changes in contract performance, estimated profitability and final contract settlements may result in revision to costs and revenue and are recognised in the period in which the revisions are determined. If a loss is projected on any contract in process, the entire projected loss is recognised immediately.

Revenue from business process outsourcing services is derived from both time based and unit-price contracts. Revenue is recognized as the related services are performed in accordance with the specific terms of the contracts with the customers.

In terms of contracts, excess / shortfall of revenue over the billed as at the year end is carried in financial statement as unbilled revenue / unearned revenue separately.

Sale of products

Revenue from the sale of product (software and hardware) is recognised when the sale has been completed with the transfer of title.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

(i) Foreign currency translation

Foreign currency transactions

(i) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

(iii) Exchange differences

Exchange differences arising on the settlement of monetary items or on reporting Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expense in the period/year in which they arise.

(iv) Forward exchange contracts not intended for trading or speculation purposes.

The premium or discount arising at the inception of forward exchange contracts (except outstanding against firm commitments and highly probable forecast transaction) is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

(v) Translation of Integral foreign operation

The financial statements of an integral foreign operation are translated as if the transactions of the foreign operation have been those of the Company itself.

(j) Retirement benefits

(i) Retirement benefits mainly in the form of Provident Fund are a defined contribution scheme and the contributions are charged to the statement of profit and loss of the year when an employee renders related services. There are no other obligations other than the contribution payable to the respective funds.

(ii) Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation made at the end of each financial year on projected unit credit method. The gratuity plan is funded.

(iii) Long term compensated absences are provided for based on actuarial valuation. The actuarial valuation is done as per projected unit credit method. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

(iv) Actuarial gains / losses are immediately taken to statement of profit and loss and are not deferred.

(k) Income taxes

Tax expense comprises of current and deferred tax.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the relevant tax regulations applicable to the Company in India and foreign jurisdiction.

Deferred income tax reflects the impact of current year timing differences between taxable income and accounting income and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises the unrecognised deferred tax assets to the extent that it has become reasonably certain that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain, that sufficient future taxable income will be available.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified year. In the year in which the Minimum Alternate Tax (MAT) credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

(l) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs incurred in connection with the borrowing of funds.

(m) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average numbers of equity shares outstanding during the year are adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding

during the year are adjusted for the effects of all dilutive potential equity shares.

(n) Provision

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at each Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the management's current estimates.

(o) Segment reporting

Identification of segments:

The Company's operating businesses are organised and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which the major customers of the Company operate and / or the area in which the assets are located.

Inter segment transfers:

The Company generally accounts for inter segment sales and transfers as if the sales or transfers were to third parties at current market prices.

Allocation of common costs:

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items:

The corporate and other segment includes general corporate income and expense items which are not allocated to any business segment.

Segment Policies:

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

(p) Accounting for derivatives

The Company uses foreign exchange forward contracts (derivative financial instrument) to hedge its exposure to movements in foreign exchange rates against firm commitment or highly probable forecast transactions. The use of these foreign exchange forward contracts reduces the risk or cost to the Company and the Company does not use the foreign exchange forward contracts or options for trading or speculation purposes.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value on a mark-to-market basis at each balance sheet date. Derivatives are

carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in fair value on derivatives during the year that do not qualify for hedge accounting and the ineffective portion of an effective hedge, are taken directly to the statement of profit and loss.

The mark-to-market is the difference between the forward exchange rate and the contract rate. The forward exchange rate is referenced to current forward exchange rates for contracts with similar maturity profiles.

For the purpose of hedge accounting, hedges are classified as:

- fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment (except for foreign currency risk); or
- cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

At the inception of a hedge relationship, the Company formally designates and documents the hedge relationship to which the Company wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they were designated.

Hedges which meet the strict criteria for hedge accounting are accounted for as follows:

Fair value hedges

The change in the fair value of a hedging derivative is recognised in the statement of profit and loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as a part of the carrying value of the hedged item and is also recognised in the statement of profit and loss.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised directly in equity, while any ineffective portion is recognised immediately in the statement of profit and loss. Amounts taken to equity are transferred to the statement of profit and loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs.

If the forecast transaction or firm commitment is no longer expected to occur, amounts previously recognised in equity are transferred to the statement of profit and loss. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked, amounts previously recognised in equity remain in equity until the forecast transaction or firm commitment occurs.

(q) Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement on balance sheet date comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

(r) Employee stock compensation cost

Measurement and disclosure of the employee share-based payment plans is done in accordance with SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, issued by the Institute of Chartered Accountants of India. The Company measures compensation cost relating to employee stock options using the intrinsic value method. Compensation expense is amortised over the vesting period of the option on a straight line basis.

(s) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

23. Segment information*Business segments:*

The Company considers business segment as the basis for primary segmental reporting. The Company is organised into two business segments – Information technology services and products and Business process outsourcing services. Costs and expenses which cannot be allocated to any business segment are reflected in the column 'corporate and others'. Segments have been identified and reported based on the nature of the services, the risks and returns, the organisation structure and the internal financial reporting system.

Geographical segments:

The Company reports secondary segment information on the basis of the geographical location of the customers / assets. Although the Company's major operating divisions are managed on a worldwide basis, they operate in five principal geographical areas of the world which are: India, United States of America, South East Asian countries, Europe and Other areas.

31. (a) During earlier years, the Company had acquired shares in ECnet Limited, a company incorporated in Singapore at a total consideration of Rs. 34,938,958. During the year ended December 31, 2005, the Company had based upon an order of High Court of Delhi written down the investment value to Rs. 10,443,237 and adjusted the write off of Rs. 24,495,721 against the Securities Premium Account as this had not been represented by available assets.

During the year ended December 31, 2007, the Company had settled the liabilities towards certain erstwhile shareholders. As a result thereof, the deferred payment compensation of Rs. 14,452,222 was released, as considered appropriate by the management. Out of above, Rs. 10,442,237 had been adjusted against the value of the investment.

During the year ended December 31, 2015, after the expiry of relevant limitation period under applicable laws, the Company had reversed deferred payment compensation amounting to Rs. 12,609,305. This reversal is included under 'Exceptional items' in the financial statements for the year ended December 31, 2015.

- (b) On November 27, 2014, the Company had completed the transfer of Europe BPO Business by way of sale of its 100% holding in R Systems Europe B.V., Netherlands and R Systems S.A.S., France, being wholly owned subsidiaries, by executing the Share Sale Agreement (the "SSA") along with other necessary documents for a sale consideration of Euro 4.70 million (Rs. 357,469,488). Out of the sale consideration, Euro 0.35 million (Rs. 26,628,000) was placed in an escrow account in the Netherlands, the realization of which was subject to certain conditions pursuant to the provision of the SSA.

During the year ended December 31, 2015, on the stipulated conditions under the SSA being completed, the Company had received Euro 0.35 million (Rs. 26,628,000) which was placed in an escrow account. The amount so received, has been included as profit on sale of aforesaid subsidiaries under the 'Exceptional items' in the financial statements for the year ended December 31, 2015.

- (c) On December 10, 2015, R Systems Solution Inc. (RSSI), a wholly owned subsidiary of the Company was merged into R Systems Inc. (RSI), also a wholly owned subsidiary of the Company, as per the applicable laws of India and USA. Pursuant to aforesaid merger, the Company had received incremental 150 common stock of RSI against outstanding common and preferred (series A) stocks held in RSSI. Accordingly the Company had recorded receipt of incremental shares in RSI at Rs. 57,816,448, being the fair value of investments given up. The Company in the earlier years had provided for permanent diminution in value of its investments in RSSI amounting to Rs. 172,676,590 and was carrying these investments at Rs. 13,414,875. Consequent to the above merger, the Company had written back such permanent diminution to the extent of available net assets of Rs. 57,816,448 and accordingly recorded Rs. 44,401,573 as gain under 'Exceptional items' in the financial statements for the year ended December 31, 2015.

- (d) On July 11, 2014, the Company had incorporated a wholly owned subsidiary in India, namely, R Systems Products & Technologies Limited (which was later converted into R Systems Products & Technologies Private Limited ("RSPTPL") on May 28, 2015). The shareholders of the Company by passing special resolution through postal ballot on September 23, 2014 had accorded necessary approval for transfer of the Company's Indus Business Unit operated out of Pune and Chennai to RSPTPL.

The Company had entered into 'Business Transfer Agreement' (BTA) with RSPTPL on June 27, 2015 for the aforesaid transfer on a going concern basis by way of slump sale, for consideration of Rs. 783,900,000 to be discharged by RSPTPL through issuance of 60,000,003 equity shares of Re. 1/- each at a premium of Rs. 6.227333 per share and 35,026 compulsorily redeemable debentures of Rs. 10,000 each to be redeemed over a period of 4 years, on the terms and conditions agreed in BTA and Debenture Subscription Agreement.

The Company also entered into 'Share Purchase Agreement' (SPA) with BD Capital Partners Ltd. ("BDC"), a Mauritius based company on June 27, 2015 to sell 93% of its equity share in RSPTPL to BDC for a consideration of Rs. 443,170,000 (USD 7 million). The closing (as defined in the agreements) under the BTA and SPA occurred on July 07, 2015.

The gain on sale of Indus Business Unit amounting to Rs. 535,713,373 (net of related expenses) and gain on sale of aforesaid equity share in RSPTPL amounting to Rs. 28,721,375 (net of related expenses) is disclosed as 'Exceptional items' in the financial statements for the year ended December 31, 2015. The income tax attributable to aforesaid gains amounting to Rs. 132,635,363 is included in the 'Current Tax' in the financial statements for the year ended December 31, 2015. The name of RSPTPL has been changed to Indus Software Technologies Private Limited (ISPTPL) w.e.f August 19, 2015.

Subject to the satisfaction of certain conditions, BDC had also agreed to purchase the balance 7% equity shares for a consideration up to Rs. 66,510,000 (USD 1 million). These conditions were under evaluation and yet to be concluded as at the year ended December 31, 2015. During the year ended December 31, 2016, the Company has fulfilled the conditions specified in the SPA for the sale of balance 7% share in ISPTPL. The gain on sale of aforesaid equity share amounts to Rs. 37,174,220 is disclosed as 'Exceptional items' in the financial statements. The income tax attributable to aforesaid gains amounting to Rs. 12,684,221 is included in the 'Current Tax' in the financial statements for the year ended December 31, 2016.

Accordingly, the aforesaid Indus Business Unit, being part of Information technology services and products segment, is considered as "Discontinuing Operations" till July 07, 2015. The net assets attributable to the aforesaid operations are as follows:

	As at July 07, 2015 Rs.

32. (a) R Systems International Limited - Year 2004 Employee Stock Option Plan ('the plan')

The Company had instituted the plan for all eligible employees as specified in the rules in pursuance of the special resolution duly approved by the shareholders. The plan provides for the issuance of 997,500 options for equity shares of face value of Rs. 10 each, to eligible employees as recommended by the Compensation Committee constituted for this purpose.

The plan is administered by a Compensation Committee and exercise price is "1.60 times the Book Value of the Share as per the audited balance sheet as on December 31, 2003 i.e. Rs. 42 per Share or 1.60 times of the book value as per immediate previous accounting year audited balance sheet rounded off to nearest rupee as on the date of Exercise whichever is higher", till the time equity shares of the Company are not listed. Once the equity shares are listed, the exercise price is prevailing price or stock price i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors in which options are granted / shares are issued, on the stock exchange on which the shares of the Company are listed.

During the year ended December 31, 2006, the Company had consolidated each of its five equity shares of Rs. 2 each into one equity share of Rs. 10 each and then issued 1:1 bonus share to each of the then existing shareholder (excluding the option holders) by

utilisation of Securities Premium Account in terms of the provisions of Section 78 of the Companies Act, 1956. Considering these changes in the capital structure, the management had adjusted the number of options vesting to its employees and exercise price to preserve the benefits intended to be made available under the plan i.e. instead of five options of Rs. 2 per share, the employees' entitlement had been adjusted to one option of Rs. 10 per share and instead of earlier exercise price of Rs. 42 per share for each Rs. 2 share, the exercise price had been accordingly adjusted to Rs. 105 per equity share. During the year ended December 31, 2008, the Company had obtained a legal opinion confirming that the adjustments undertaken to the number of options vesting to its employees and exercise price, pursuant to the consolidation and subsequent bonus issue during the year ended December 31, 2006, does not tantamount to modification and no additional benefit was offered to the existing option holders. Further, during the year ended December 31, 2014, the Company had sub-divided equity shares of Rs. 10 each into 10 equity shares of Re. 1 each, the exercise price is accordingly adjusted from Rs. 105 per share to Rs. 10.50 per share.

The vesting period is 4 years (25% in each year) commencing from the date of grant under the plan. The eligible employees have an option to exercise it over a period of 10 years from the date of grant under the plan. As per the plan, the Compensation Committee cannot grant any outstanding options after August 31, 2014, therefore there are no grants outstanding for determination by the Compensation Committee.

During the year ended December 31, 2015 the scheme has been lapsed therefore all the grants outstanding has been lapsed. The movement in the options during the year ended December 31, 2015 is set out below:

	Year ended December 31, 2015 (Nos.)
At the beginning	
- Grants outstanding under the plan (Re. 1 per share)	102,150
- Grants pending determination by the Compensation Committee (Re. 1 per share)	-
During the year	
- Options granted (Re. 1 per share)	
- Options exercised (Re. 1 per share)	
- Options/grants lapsed or surrendered (Re. 1 per share)	102,150
At the end	
- Grants outstanding under the plan (Re. 1 per share)	-
- Grants pending determination by the Compensation Committee (Re.1 per share)	-

The weighted average remaining contractual life for the stock options as at December 31, 2015 is Nil months.

(b) R Systems International Limited Employees Stock Option Plan – Year 2001 ('the plan')

Indus Software Private Limited ('Indus') had outstanding options aggregating 21,967 equity shares as on March 31, 2002, to be issued to the eligible employees under the R Systems International Limited Employees Stock Option Plan – Year 2001 under various vesting periods as specified in the said Plan, duly approved by the erstwhile shareholders. Indus had established "R Systems Employees Welfare Trust" ('the R Systems Trust') (formerly known as Indus Software Employees Welfare Trust") to administer the plan, as approved by the members, for the benefits of the Company's employees and had provided an interest free loan of Rs. 3,382,792. Consequently, Indus had allotted 21,967 equity shares of Rs. 10 each at a premium of Rs. 144 per equity share to the R Systems Trust to be further issued to the Indus' eligible employees on the exercise of the underlying options granted to them.

As a result of the merger of Indus with the Company, all employees had surrendered their options in favour of the R Systems Trust to enable them to obtain options for shares in R Systems International Limited after the merger. Also, the Company had issued 206,822 equity shares of Rs. 2 each at a premium of Rs. 113.42 per share to the R Systems Trust in exchange of 21,967 equity shares of Indus, apropos to the agreed swap ratio. During the earlier years out of the said 206,822 shares 22,079 shares were issued to the employees on exercise of options.

The Company had consolidated each of its five equity shares of Rs. 2 each into one equity share of Rs. 10 each on January 30, 2006 and then issued 1:1 bonus share to each of the then existing shareholder by utilisation of Securities Premium Account in terms of the provisions of Section 78 of the Companies Act, 1956 and further sub-division of each of the equity shares of Rs. 10 each into 10 equity shares of Re. 1 each as per record date of February 28, 2014, consequently the total number of shares issued are now 738,980 equity shares of Re. 1 each. Accordingly an amount of Rs. 738,980 and Rs. 2,282,728 is shown as deduction from Issued, subscribed and paid-up capital and Securities Premium Account respectively as suggested by the "Guidance Note on Accounting for Employee Share-based Payments" issued by The Institute of Chartered Accountants of India.

The movement in the options (in equivalent number of shares of the Company) held by the Trust during the year ended December 31, 2016 and the year ended December 31, 2015 is set out below:

	Year ended December 31, 2016	Year ended December 31, 2015
	(Nos.)	(Nos.)
<u>At the beginning</u>		
- Grants outstanding under the plan (Re. 1 per share)

- Grants outstanding under the plan (Re. 1 per share)		
- Grants pending determination by the Compensation Committee (Re.1 per share)	738,980	738,980

(c) R Systems International Limited Employee Stock Option Scheme 2007 ('the plan')

During the year 2007, the Company had instituted the plan for all eligible employees as specified in the rules in pursuance of the special resolution duly approved by the shareholders. The plan provides for the issuance of 650,000 options to eligible employees as recommended by the Compensation Committee constituted for this purpose.

The plan is administered by a Compensation Committee and exercise price in respect of 632,500 options granted on July 11, 2007 is Rs. 120.70 being the latest available closing price, prior to the date of the meeting of the Board of Directors / Compensation Committee, on the stock exchange on which the shares of the Company are listed. Accordingly, the intrinsic value of Employee Stock Option is taken as Rs. Nil. Further, during the year ended December 31, 2014, the Company had sub-divided equity shares of Rs. 10 each into 10 equity shares of Re. 1 each, the exercise price is accordingly adjusted from Rs. 120.70 per share to Rs. 12.07 per share.

On the recommendation of the Compensation Committee and Nomination and Remuneration Committee, the Board of Director at its meeting held on April 30, 2016, had further granted 150,000 options at an exercise price of Rs. 12.07 /- per option under R Systems International Limited Employee Stock Option Scheme 2007.

The vesting period is 4 years (25% in each year) commencing from the date of grant under the plan. The eligible employees have an option to exercise it over a period of 10 years from the date of grant under the plan. The movement in the options during the year ended December 31, 2016 and year ended December 31, 2015 is set out below:

	Year ended December 31, 2016	Year ended December 31, 2015
	(Nos.)	(Nos.)
<u>At the beginning</u>		
- Grants outstanding under the plan (Re. 1 per share)	80,280	245,280
- Grants pending determination by the Compensation Committee (Re. 1 per share)	2,040,000	1,965,000
<u>During the year</u>		
- Options granted (Re. 1 per share)	150,000	-
- Options exercised (Re. 1 per share)	-	90,000
- Options/grants lapsed or surrendered (Re. 1 per share)	35,000	75,000
<u>At the end</u>		
- Grants outstanding under the plan (Re. 1 per share)	195,280	80,280
- Grants pending determination by the Compensation Committee (Re.1 per share)	1,925,000	2,040,000

For options exercised during the year 2015, the weighted average share price at the exercise date was Rs. 68.71.

The weighted average remaining contractual life for the stock options as at December 31, 2016 is 13 months (Previous year 19 months).

- (d) For the purpose of valuation of the options granted before year ended December 31, 2004, the management obtained fair value of the options at the date of grant under respective schemes from a firm of Chartered Accountants to determine accounting impact, if any, of options granted over the periods. In the considered opinion of the valuer, the fair value of option determined using 'Black Scholes Valuation Model' under each of above schemes [except R Systems International Limited Employee Stock Option Scheme 2007 refer 32 (c) above] is "Nil" and thus no accounting thereof is required.

The assumptions used for the purpose of determination of fair value are stated below:

Assumptions	Unit	Scheme (a) *	Scheme (b) **	Comments by the valuer
Strike price	Rs.	42	154	
Current share price	Rs.	16	140	Taken on the basis of NAV and PECV method of valuation.
Expected option life	No. of Year	5	2.5	Being half of the maximum option life.
Volatility	%	1	0.5	In case of unlisted shares, the volatility may be taken as zero. Verma committee also recommends this.
Risk free return	%	7	11.3	Zero coupon rate estimated from trading government securities for a maturity corresponding to expected life of option - taken from sites of NSE and / or BSE.
Expected dividend yield	%	-	15	Company has no set policy so dividend taken as zero. In case of Scheme (b), as the dividend had been paid by the erstwhile company, it has been assumed at 15%.

* R Systems International Ltd. - Year 2004 Employee Stock Option Plan under which the price was based on Rs. 2 per share.

** R Systems International Limited Employees Stock Option Plan – Year 2001 under which originally the price was based on Rs. 10 per share for 21,967 shares. As a result of amalgamation of Indus Software Private Limited into R Systems, R Systems had issued 206,822 equity shares of Rs. 2 each pursuant to the swap ratio approved by Hon'ble High Courts of Delhi and Mumbai.

The details given above for plan (a) and (b) are before making the required adjustments in relation to consolidation of each of the 5 equity shares of Rs. 2 each into 1 equity share of Rs. 10 each as approved by the shareholders in the year ended December 31, 2006 and further sub-division of each of the equity shares of Rs. 10 each into 10 equity shares of Re. 1 each as per record date of February 28, 2014.

Further, for the purpose of valuation of the options granted during the year 2005 under R Systems International Limited- Year 2004 Employee Stock Option Plan, the management obtained fair value of the options at the date of grant from a firm of Chartered Accountants, to determine accounting impact, if any, of options granted. In the considered opinion of the valuer, the fair value of these option determined using 'Black Scholes Valuation Model' is "Nil" and thus no accounting thereof is required.

The assumptions used by the valuer for the purpose of determination of fair value are stated below:

Assumptions	Unit	Scheme	Comments by the valuer
Strike price	Rs.	42

FINANCIAL STATEMENTS (CONSOLIDATED)

INDEPENDENT AUDITOR'S REPORT

To the Members of R Systems International Limited

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of R Systems International Limited (hereinafter referred to as "the Holding Company") and its subsidiaries namely; R Systems Inc., USA, R Systems Technologies Limited, USA (formerly known as Indus Software Inc., USA), R Systems (Singapore) Pte Limited, Singapore and its subsidiaries, ECnet Limited, Singapore and its subsidiaries, Computaris International Limited, U.K. and its subsidiaries and R SYS Technologies Limited, Canada (formerly known as Systèmes R. International Ltée, Canada), (the Holding Company and its subsidiaries together referred to as "the Group"), comprising the consolidated Balance Sheet as at December 31, 2016, the consolidated Statement of Profit and Loss and consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the consolidated financial statements').

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms with the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the

audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at December 31, 2016, their consolidated profit, and their consolidated cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

As required by section 143 (3) of the Act, we report, to the extent applicable, that:

- (a) We/the other auditors whose reports we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
- (b) In our opinion proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
- (c) The consolidated Balance Sheet, consolidated Statement of Profit and Loss, and consolidated Cash Flow Statement dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014;

- (e) On the basis of the written representations received from the directors of the Holding Company as on December 31, 2016 taken on record by the Board of Directors of the Holding Company and the reports of the auditors who are appointed under Section 139 of the Act, of its subsidiary companies incorporated in India, none of the directors of the Group's companies incorporated in India is disqualified as on December 31, 2016 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls over financial reporting of the Holding Company and its subsidiary companies incorporated in India, refer to our separate report in "Annexure" to this report;
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
- The Group does not have any pending litigations which would impact its consolidated financial position;
 - The Group did not have any material foreseeable losses in long-term contracts including derivative contracts.
 - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries incorporated in India.

Other Matter

The accompanying consolidated financial statements include total assets of Rs. 20,662.96 lakhs as at December 31, 2016, and total revenues and net cash inflows of Rs. 33,763.45 lakhs and Rs. 857.90 lakhs for the year ended on that date, in respect of twenty five subsidiaries, which have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The financial statements and other financial information of these subsidiaries have

been prepared in accordance with accounting policies generally accepted in their respective countries and have been audited by other auditors who have submitted their audit opinions, prepared under generally accepted auditing standards of their respective countries, to the shareholder of the respective companies. The Company's management has converted the financial statements of these subsidiaries to accounting principles generally accepted in India. We audited the adjustments that were applied to prepare the 2016 consolidated financial statements made by the Company's management to convert these subsidiaries financial statements and information from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. In our opinion, such adjustments have been properly applied. We did not audit the 2016 financial statements of these subsidiaries and accordingly, our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the report(s) of such auditors and information provided by the Company's management. Our opinion is not qualified in this regard.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements above, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management

ANNEXURE TO THE AUDITOR'S REPORT

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF R SYSTEMS INTERNATIONAL LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of R Systems International Limited (hereinafter referred to as the "Holding Company") as of and for the year ended December 31, 2016, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary company, which is company incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding Company and its subsidiary company, which is company incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary company, which is company incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at December 31, 2016, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding Company, insofar as it relates to subsidiary, which is company incorporated in India, is based on the corresponding reports of the auditors of such subsidiary incorporated in India.

NOTES to the Consolidated Financial Statements for the year ended December 31, 2016

1 Basis of preparation

The consolidated financial statements of R Systems International Limited (the 'Company') and its subsidiaries (collectively referred to as 'R Systems Group' or the 'Group') have been prepared to comply in all material respects with the accounting standards notified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other accounting principles generally accepted in India. The financial statements have been prepared on an accrual basis and under the historical cost convention except for certain financial instruments which are measured at fair value. The accounting policies have been consistently applied by the Company and are consistent with those used in previous year.

Further, the Company continues to follow calendar year i.e 1st day of January to 31st day of December as its financial year vide the Company Law Board approval dated November 18, 2015 under the proviso to Section 2(41) of the Companies Act, 2013.

All figures are in Rupees except where expressly stated.

1.1 Summary of significant accounting policies

(a) Principles of consolidation

The consolidated financial statements are prepared in accordance with the principles and procedures for the preparation and presentation of consolidated financial statements as laid down under Accounting Standard 21 "Consolidated Financial Statements".

The consolidated financial statements include the financial statements of R Systems International Limited and its subsidiaries (as explained in note 2 below). These accounts do not include enterprises, which are set-up for the benefit of employees like ESOP trusts (explained in note 31 (b) below) as not required to be consolidated as per Accounting Standard 21 "Consolidated Financial Statements".

The consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's standalone financial statements. The Group follows uniform accounting year i.e. January to December.

The financial statements of the Company and its subsidiaries have been consolidated on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances / transactions.

Minority Interest's share in the net income of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company. In case the losses applicable to consolidated minority are in excess of minority interest in the equity of the subsidiary, the excess, and any further losses applicable to the minority are adjusted against

majority interest except to the extent minority has a binding obligation to, and is able to, make good losses. If the subsidiary subsequently reports profit, all such profits are allocated to the majority interest until the minority's share of losses previously absorbed by the majority has been recovered.

(b) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. These estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

(c) Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the assets and are recognised in the statement of profit and loss when the asset is derecognised.

(d) Depreciation on tangible fixed assets

Depreciation on tangible assets including investment property is provided on the straight line method based on useful lives of respective assets as estimated by the management. The assets residual values and useful lives are reviewed at each financial year end or whenever there are indicators for review, and adjusted prospectively.

Considering the applicability of Schedule II, the management has re-estimated useful lives and residual values of all its fixed assets. The management believes that depreciation rates currently used fairly reflect its estimate of the useful lives and residual values of fixed assets and are in align with Part C of Schedule II of the Companies Act 2013 (also refer note 33).

The estimated useful lives of the tangible fixed assets followed by the Group in preparing the consolidated financial statements are described as below:

Category of tangible fixed assets	Estimated useful life
Land leasehold	Lease period
Building	30 years
Leasehold improvements	Lower of lease period or useful life
Plant and machinery - other than air conditioners	15 years

Category of tangible fixed assets	Estimated useful life
Air conditioners	5 years
Office Equipment (other than end user devices)	5 years
Computer hardware and network installations (other than end user devices)	6 years
End-user devices such as desktop, laptop, mobile phones etc.	3 years
Furniture and fittings	10 years
Vehicles	8 years
Electrical Installations	10 years

(e) Intangibles assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

Intangible assets are amortised on a straight line basis over the estimated useful economic life and are assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortisation method is changed to reflect the changed pattern. Such changes are accounted for in accordance with AS 5 Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies.

Research and development costs

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognised as an intangible asset when the company can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- Its intention to complete the asset
- Its ability to use or sell the asset
- How the asset will generate future economic benefits
- The availability of adequate resources to complete the development and to use or sell the asset
- The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised on a straight line basis over the period of expected future benefit from the related project. Amortisation is recognised in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

A summary of amortisation policies applied to intangible assets are as below:

Category of intangible fixed assets	Estimated useful life
Computer software	Lower of license period or 3 to 5 Years
Customer contract	Over the period of contract
Internally generated software	4 years

(f) Goodwill / capital reserve

Goodwill / capital reserve represents the cost to the parent of its investment in subsidiaries over / under the parent's portion of equity of the subsidiary, at the date on which the investment in the subsidiaries is made.

(g) Impairment

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset.

After impairment, tangible assets / intangibles are depreciated/ amortised on the revised carrying amount over its remaining useful life.

The Group evaluates the carrying value of its goodwill whenever events or changes in circumstances indicate that its carrying value may be impaired. Impairment is recognised in the year/ period of such determination. Management also ascertains the future revenue and earnings of the acquired entities and analyses sustainability thereof to determine impairment. For ascertaining impairment, consideration is given to fair value of the acquired entities.

(h) Leases*Where the Group is the lessee*

Finance leases, which effectively transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the lower of the fair value of lease property and present value of the minimum lease payments at the inception of the lease term and disclosed as

leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are recognised as finance cost in the statement of profit and loss. Lease management fees, legal charges and other initial direct costs are capitalised.

A leased asset is depreciated on a straight-line basis over the useful life of the asset. However, if there is no reasonable certainty that the group will obtain the ownership by the end of the lease term, the capitalized asset is depreciated on a straight-line basis over the shorter of the estimated useful life of the asset or the lease term.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased term, are classified as operating leases. Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

Where the Group is the lessor

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included under non-current investments as investment property and are carried at cost less accumulated depreciation. Lease income on an operating lease is recognized in the statement of profit and loss on a straight-line basis over the lease term. Costs, including depreciation, are recognized as an expense in the statement of profit and loss.

(i) Investments

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Non-current investments are carried at cost except for investment property which is carried at cost less accumulated depreciation. However, provision for diminution in value is made to recognise a decline other than temporary in the value of the non-current investments.

(j) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured.

Rendering of services

Revenue from software development and maintenance services projects comprise income from time-and-material and fixed-price contracts.

Revenue with respect to time and material basis is recognised when services are rendered. The same is calculated based on man-hours incurred for rendering services.

Fixed-price contracts vary in duration depending on the terms of the work being performed. Revenue from fixed price contracts (including maintenance and support contracts) is

recognised using the percentage of completion method, when reasonable progress has been made on the milestones achieved as specified in the contracts. The stage of completion of project is determined by the proportion that contract efforts incurred for work performed up to the balance sheet date bear to the estimated total contract effort. Changes in contract performance, estimated profitability and final contract settlements may result in revision to costs and revenue and are recognised in the period in which the revisions are determined. If a loss is projected on any contract in process, the entire projected loss is recognised immediately.

Revenue from business process outsourcing services is derived from both time based and unit-price contracts. Revenue is recognized as the related services are performed in accordance with the specific terms of the contracts with the customers.

In terms of contracts excess / shortfall of revenue over the billed as at the year-end is carried in financial statement as unbilled revenue / unearned revenue separately.

Sale of products

Revenue from the sale of product (software and hardware) is recognised when the sale has been completed with the transfer of title.

Interest

Revenue is recognised on a time proportion basis taking into account the amount outstanding and the rate applicable.

(k) Foreign currency translation

Foreign currency transactions

(i) Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

(ii) Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

(iii) Exchange differences

Exchange differences arising on the settlement of monetary items or on reporting Group monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expense in the year in which they arise except those arising from investments in non-integral operations.

(iv) Forward exchange contracts not intended for trading or speculation purposes

The premium or discount arising at the inception of forward exchange contracts (except outstanding against firm

commitments and highly probable forecast transaction) is amortised as expense or income over the life of the contract. Exchange differences on such contracts are recognised in the statement of profit and loss in the year in which the exchange rates change. Any profit or loss arising on cancellation or renewal of forward exchange contract is recognised as income or as expense for the year.

(v) Translation of non-integral foreign operations

In translating the financial statements of a non-integral foreign operation for incorporation in consolidated financial statements, the assets and liabilities, both monetary and non-monetary, of the non-integral foreign operation are translated at the closing rate; income and expense items of the non-integral foreign operations are translated at yearly average exchange rates; and all resulting exchange differences are accumulated in a foreign currency translation reserve until the disposal of net investment. On the disposal of a non-integral foreign operation, the cumulative amount of the exchange differences which have been deferred and which relate to that operation are recognised as income or as expenses in the same period in which the gain or loss on disposal is recognised.

For translating income, expense and cash flows items, during the year ended December 31, 2016, the rates used were US \$ 1 = Rs. 67.19, Euro 1 = Rs. 74.36, GBP 1 = Rs. 91.07, Singapore \$ 1 = Rs. 48.68 and Canadian \$ 1 = Rs. 50.75. For translating assets and liabilities at the year-end, the rates used were US \$ 1 = Rs. 67.93, Euro 1 = Rs. 71.66, GBP 1 = Rs. 83.46, Singapore \$ 1 = Rs. 47.01 and Canadian \$ 1 = Rs. 50.39.

For translating income, expense and cash flows items, during the year ended December 31, 2015, the rates used were US \$ 1 = Rs. 64.15, Euro 1 = Rs. 71.21, GBP 1 = Rs. 98.06, Singapore \$ 1 = Rs. 46.67 and Canadian \$ 1 = Rs. 50.20. For translating assets and liabilities at the year-end, the rates used were US \$ 1 = Rs. 66.16, Euro 1 = Rs. 72.11, GBP 1 = Rs. 98.07, Singapore \$ 1 = Rs. 46.83 and Canadian \$ 1 = Rs. 47.67.

(vi) Translation of Integral foreign operation

The financial statements of an integral foreign operation are translated as if the transactions of the foreign operation have been those of the Company itself.

(I) Retirement benefits

- (i) Retirement benefits in the form of defined contribution schemes are charged to the statement of profit and loss of the year when an employee renders related services. There are no other obligations other than the contribution payable to the respective funds.
- (ii) Gratuity liability is a defined benefit obligation and is provided for on the basis of an actuarial valuation made at the end of each financial year for the employees of the Company on projected unit credit method. The gratuity

plan of the Company is funded.

- (iii) Long term compensated absences are provided for based on actuarial valuation. The actuarial valuation is done as per projected unit credit method. The Group presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.
- (iv) Actuarial gains / losses are immediately taken to statement of profit and loss and are not deferred.

(m) Income taxes

Tax expense comprises of current and deferred tax.

Current income tax expense comprises of taxes on income from operations in India and in foreign jurisdictions. Income tax payable in India is determined in accordance with the provisions of the Income Tax Act, 1961. Tax expense relating to overseas operations is determined in accordance with tax laws applicable in countries where such operations are domiciled.

Deferred income tax reflects the impact of current year timing differences between taxable income and accounting income and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets and deferred tax liabilities across various countries of operation are not set off against each other as the Group does not have a legal right to do so. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised.

If the Group has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits.

At each balance sheet date the Group re-assesses unrecognised deferred tax assets. It recognises the unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Group writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed

to the extent that it becomes reasonably certain, that sufficient future taxable income will be available.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified year. In the year in which the Minimum Alternate Tax (MAT) credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

The companies in the Group are subject to tax legislation as applicable in the respective country of incorporation. Accordingly, the calculations do not represent tax liability / income attributable to Group results, if these were to be analysed under the local legislation of the Company.

(n) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs incurred in connection with the borrowing of funds.

(o) Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement on balance sheet date comprise cash at bank and in hand and short-term investments with an original maturity of three months or less.

(p) Government grants and subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that the grant / subsidy will be received and all attaching conditions will be complied with.

When the grant or subsidy relates to an expense item, it is deducted in reporting the related expenses over the periods necessary to match them on a systematic basis to the costs, which it is intended to compensate.

(q) Provision

A provision is recognised when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on the best estimate required to settle the obligation at each balance sheet date. These are

reviewed at each balance sheet date and adjusted to reflect the management's current estimates.

(r) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average numbers of equity shares outstanding during the year are adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

(s) Segment reporting

Identification of segments :

The Group's operating businesses are organised and managed separately according to the nature of products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. The analysis of geographical segments is based on the areas in which the major customers of the Group operate and / or the area in which the assets are located

Inter segment transfers :

The Group generally accounts for inter segment sales and transfers as if the sales or transfers were to third parties at current market prices.

Allocation of common costs :

Common allocable costs are allocated to each segment according to the relative contribution of each segment to the total common costs.

Unallocated items :

The corporate and other segment includes general corporate income and expense items which are not allocated to any business segment.

Segment Policies :

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Group as a whole.

(t) Employee stock compensation cost

Measurement and disclosure of the employee share-based payment plans is done in accordance with SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and the Guidance Note on Accounting for Employee Share-based Payments, issued by the Institute of Chartered Accountants of India. The Company measures compensation cost relating to

employee stock options using the intrinsic value method. Compensation expense is amortised over the vesting period of the option on a straight line basis.

(u) Accounting for derivatives

The Group uses foreign exchange forward contracts (derivative financial instrument) to hedge its exposure to movements in foreign exchange rates against firm commitment or highly probable forecast transactions. The use of these foreign exchange forward contracts reduces the risk or cost to the Group and the Group does not use the foreign exchange forward contracts or options for trading or speculation purposes.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value on a mark-to-market basis at each balance sheet date. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in fair value on derivatives during the year that do not qualify for hedge accounting and the ineffective portion of an effective hedge, are taken directly to the statement of profit and loss.

The mark-to-market is the difference between the forward exchange rate and the contract rate. The forward exchange rate is referenced to current forward exchange rates for contracts with similar maturity profiles.

For the purpose of hedge accounting, hedges are classified as:

- fair value hedges when hedging the exposure to changes in the fair value of a recognised asset or liability or an unrecognised firm commitment (except for foreign currency risk); or
- cash flow hedges when hedging exposure to variability in cash flows that is either attributable to a particular risk associated with a recognised asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognised firm commitment.

At the inception of a hedge relationship, the Group formally designates and documents the hedge relationship to which the Group wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge. The documentation includes identification of the hedging instrument, the hedged item or transaction, the nature of the risk being hedged and how the entity will assess the hedging instrument's effectiveness in offsetting the exposure to changes in the hedged item's fair value or cash flows attributable to the hedged risk. Such hedges are expected to be highly effective in offsetting changes in fair value or cash flows and are assessed on an ongoing basis to determine that they actually have been highly effective throughout the financial reporting periods for which they

were designated.

Hedges which meet the strict criteria for hedge accounting are accounted for as follows:

Fair value hedges

The change in the fair value of a hedging derivative is recognised in the statement of profit and loss. The change in the fair value of the hedged item attributable to the risk hedged is recorded as a part of the carrying value of the hedged item and is also recognised in the Statement of profit and loss.

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognised directly in equity, while any ineffective portion is recognised immediately in the Statement of profit and loss. Amounts taken to equity are transferred to the Statement of profit and loss when the hedged transaction affects profit or loss, such as when the hedged financial income or financial expense is recognised or when a forecast sale occurs.

If the forecast transaction or firm commitment is no longer expected to occur, amounts previously recognised in equity are transferred to the Statement of profit and loss. If the hedging instrument expires or is sold, terminated or exercised without replacement or rollover, or if its designation as a hedge is revoked, amounts previously recognised in equity remain in equity until the forecast transaction or firm commitment occurs.

(v) Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements.

24. Segment information

Business segments :

R Systems Group is a leading global provider of IT solutions and Business Process Outsourcing (BPO) services. The Group considers business segment as the basis for primary segmental reporting. The Group is organised into two business segments – Information technology services & products and Business process outsourcing services. Costs and expenses which cannot be allocated to any business segment are reflected in the column 'corporate and others'. Segments have been identified and reported based on the nature of the services, the risks and returns, the organisation structure and the internal financial reporting system.

Geographical segments :

The Group reports secondary segment information on the basis of the geographical location of the customers / assets. Although the Group's major operating divisions are managed on a worldwide basis, they operate in five principal geographical areas of the world which are: India, United States of America, South East Asian countries, Europe and Other areas.

31. (a) R Systems International Limited - Year 2004 Employee Stock Option Plan ('the plan')

The Company had instituted the plan for all eligible employees as specified in the rules in pursuance of the special resolution duly approved by the shareholders. The plan provides for the issuance of 997,500 options for equity shares of face value of Rs. 10 each, to eligible employees as recommended by the Compensation Committee constituted for this purpose.

The plan is administered by a Compensation Committee and exercise price is "1.60 times the Book Value of the Share as per the audited balance sheet as on December 31, 2003 i.e. Rs. 42 per Share or 1.60 times of the book value as per immediate previous accounting year audited balance sheet rounded off to nearest rupee as on the date of Exercise whichever is higher", till the time equity shares of the Company are not listed. Once the equity shares are listed, the exercise price is prevailing price or stock price i.e. the latest available closing price, prior to the date of the meeting of the Board of Directors in which options are granted / shares are issued, on the stock exchange on which the shares of the Company are listed.

During the year ended December 31, 2006, the Company had consolidated each of its five equity shares of Rs. 2 each into one equity share of Rs. 10 each and then issued 1:1 bonus share to each of the then existing shareholder (excluding the option holders) by utilisation of Securities Premium Account in terms of the provisions of Section 78 of the Companies Act, 1956. Considering these changes in the capital structure, the management had adjusted the number of options vesting to its employees and exercise price to preserve the benefits intended to be made available under the plan i.e. instead of five options of Rs. 2 per share, the employees' entitlement had been adjusted to one option of Rs. 10 per share and instead of earlier exercise price of Rs. 42 per share for each Rs. 2 share, the exercise price had been accordingly adjusted to Rs. 105 per equity share. During the year ended December 31, 2008, the Company had obtained a legal opinion confirming that the adjustments undertaken to the number of options vesting to its employees and exercise price, pursuant to the consolidation and subsequent bonus issue during the year ended December 31, 2006, does not tantamount to modification and no additional benefit was offered to the existing option holders. Further, during the year ended December 31, 2014, the Company had sub-divided equity shares of Rs. 10 each into 10 equity shares of Re. 1 each, the exercise price is accordingly adjusted from Rs. 105 per share to Rs. 10.50 per share.

The vesting period is 4 years (25% in each year) commencing from the date of grant under the plan. The eligible employees have an option to exercise it over a period of 10 years from the date of grant under the plan. As per the plan, the Compensation Committee cannot grant any outstanding options after August 31, 2014, therefore there are no grants outstanding for determination by the Compensation Committee.

During the year ended December 31, 2015 the scheme has been lapsed therefore all the grants outstanding has been lapsed. The movement in the options during the year ended December 31, 2015 is set out below:

	Year ended December 31, 2015 (Nos.)
At the beginning	
- Grants outstanding under the plan (Re. 1 per share)	102,150
- Grants pending determination by the Compensation Committee (Re. 1 per share)	-
During the year	
- Options granted (Re. 1 per share)	-
- Options exercised (Re. 1 per share)	-
- Options/grants lapsed or surrendered (Re. 1 per share)	102,150
At the end	
- Grants outstanding under the plan (Re. 1 per share)	-
- Grants pending determination by the Compensation Committee (Re.1 per share)	-

The weighted average remaining contractual life for the stock options as at December 31, 2015 is Nil months.

(b) R Systems International Limited Employees Stock Option Plan – Year 2001 ('the plan')

Indus Software Private Limited ('Indus') had outstanding options aggregating 21,967 equity shares as on March 31, 2002, to be issued to the eligible employees under the R Systems International Limited Employees Stock Option Plan – Year 2001 under various vesting periods as specified in the said Plan, duly approved by the erstwhile shareholders. Indus had established "R Systems Employees Welfare Trust" ('the R Systems Trust') (formerly known as Indus Software Employees Welfare Trust) to administer the plan, as approved by the members, for the benefits of the Company's employees and had provided an interest free loan of Rs. 3,382,792. Consequently, Indus had allotted 21,967 equity shares of Rs. 10 each at a premium of Rs. 144 per equity share to the R Systems Trust to be further issued to the Indus' eligible employees on the exercise of the underlying options granted to them.

As a result of the merger of Indus with the Company, all employees had surrendered their options in favour of the R Systems Trust to enable them to obtain options for shares in R Systems International Limited after the merger. Also, the Company had issued 206,822 equity shares of Rs. 2 each at a premium of Rs. 113.42 per share to the R Systems Trust in exchange of 21,967 equity shares of Indus, apropos to the agreed swap ratio. During the earlier years out of the said 206,822 shares 22,079 shares were issued to the employees on exercise of options.

The Company had consolidated each of its five equity shares of Rs. 2 each into one equity share of Rs. 10 each on January 30, 2006 and then issued 1:1 bonus share to each of the then existing shareholder by utilisation of Securities Premium Account in terms of the provisions of Section 78 of the Companies Act, 1956 and further sub-division of each of the equity shares of Rs. 10 each into 10 equity shares of Re. 1 each as per record date of February 28, 2014, consequently the total number of shares issued are now 738,980 equity shares of Re. 1 each. Accordingly an amount of Rs. 738,980 and Rs. 2,282,728 is shown as deduction from Issued, subscribed and paid-up capital and Securities Premium Account respectively as suggested by the "Guidance Note on Accounting for Employee Share-based Payments" issued by The Institute of Chartered Accountants of India.

The movement in the options (in equivalent number of shares of the Company) held by the Trust during the year ended December 31, 2016 and the year ended December 31, 2015 is set out below:

	Year ended December 31, 2016	Year ended December 31, 2015
	(Nos.)	(Nos.)
<u>At the beginning</u>		
- Grants outstanding under the plan (Re. 1 per share)

- Grants pending determination by the Compensation Committee (Re.1 per share)	738,980	738,980

(c) R Systems International Limited Employee Stock Option Scheme 2007 ('the plan')

During the year 2007, the Company had instituted the plan for all eligible employees as specified in the rules in pursuance of the special resolution duly approved by the shareholders. The plan provides for the issuance of 650,000 options to eligible employees as recommended by the Compensation Committee constituted for this purpose.

The plan is administered by a Compensation Committee and exercise price in respect of 632,500 options granted on July 11, 2007 is Rs. 120.70 being the latest available closing price, prior to the date of the meeting of the Board of Directors / Compensation Committee, on the stock exchange on which the shares of the Company are listed. Accordingly, the intrinsic value of Employee Stock Option is taken as Rs. Nil. Further, during the year ended December 31, 2014, the Company had sub-divided equity shares of Rs. 10 each into 10 equity shares of Re. 1 each, the exercise price is accordingly adjusted from Rs. 120.70 per share to Rs. 12.07 per share.

On the recommendation of the Compensation Committee and Nomination and Remuneration Committee, the Board of Director at its meeting held on April 30, 2016, had further granted 150,000 options at an exercise price of Rs. 12.07 /- per option under R Systems International Limited Employee Stock Option Scheme 2007.

The vesting period is 4 years (25% in each year) commencing from the date of grant under the plan. The eligible employees have an option to exercise it over a period of 10 years from the date of grant under the plan. The movement in the options during the year ended December 31, 2016 and year ended December 31, 2015 is set out below:

	Year ended December 31, 2016	Year ended December 31, 2015
	(Nos.)	(Nos.)
<u>At the beginning</u>		
- Grants outstanding under the plan (Re. 1 per share)	80,280	245,280
- Grants pending determination by the Compensation Committee (Re. 1 per share)	2,040,000	1,965,000
<u>During the year</u>		
- Options granted (Re. 1 per share)	150,000	-
- Options exercised (Re. 1 per share)	-	90,000
- Options/grants lapsed or surrendered (Re. 1 per share)	35,000	75,000
<u>At the end</u>		
- Grants outstanding under the plan (Re. 1 per share)	195,280	80,280
- Grants pending determination by the Compensation Committee (Re.1 per share)	1,925,000	2,040,000

For options exercised during the year 2015, the weighted average share price at the exercise date was Rs. 68.71.

The weighted average remaining contractual life for the stock options as at December 31, 2016 is 13 months (Previous year 19 months).

- (d) For the purpose of valuation of the options granted before year ended December 31, 2004, the management obtained fair value of the options at the date of grant under respective schemes from a firm of Chartered Accountants to determine accounting impact, if any, of options granted over the periods. In the considered opinion of the valuer, the fair value of option determined using 'Black Scholes Valuation Model' under each of above schemes [except R Systems International Limited Employee Stock Option Scheme 2007 refer 31 (c) above] is "Nil" and thus no accounting thereof is required.

The assumptions used for the purpose of determination of fair value are stated below:

Assumptions	Unit	Scheme (a) *	Scheme (b) **	Comments by the valuer

EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013

Item No. 3

Though not required statutorily, the below statement is provided as an additional information to the members.

M/s. S.R. Batliboi & Associates LLP, Chartered Accountants (ICAI Firm Registration No. 101049W/E300004) has been Associated with the Company as the Statutory Auditors for more than a decade. As per the provisions of Section 139 of the Companies Act, 2013 ("Act"), no listed company can appoint or re-appoint an audit firm as an auditor for more than two terms of five consecutive years. Section 139 of the Act has also provided a time period to comply with the aforesaid requirements i.e. a period which shall not be later than the date of the first annual general meeting of the company held after three years from the date of commencement of this Act.

M/s Deloitte Haskins & Sells LLP, Chartered Accountants (Firm Registration No. 117366W/W-100018) have consented to the said appointment and confirmed that they are eligible for appointment as Statutory Auditors of the Company under Section 139 of the Act and meet the criteria for appointment specified in Section 141 of the Act .

Further, they have also confirmed that they are not disqualified from being appointed as auditors under the applicable provisions of the Act and the rules or regulations made thereunder and proposed appointment will be as per the terms provided under the provisions of the Act.

In view of the above, M/s Deloitte Haskins & Sells LLP, Chartered Accountants, being eligible for appointment and based on the recommendation of the Audit Committee, the Board of Directors has proposed the appointment of M/s Deloitte Haskins & Sells LLP, Chartered Accountants as the statutory auditors of the Company for a period of five years and to hold the office of Statutory Auditor from the conclusion of this AGM till the conclusion of the twenty-eighth AGM of the Company (subject to ratification of their appointment at every AGM).

None of the Directors or Key Managerial Personnel of the Company and their relatives are in any way concerned or interested, financially or otherwise, in this resolution.

The Board recommends the resolution as set out in Item no. 3 for approval of the Members to be passed as an Ordinary Resolution.

Item Nos. 04 and 05

Pursuant to the provisions of Section 161 of the Companies Act, 2013 and the rules made thereunder ('the Act') read with Articles of Association of the Company, Mr. Kapil Dhameja (DIN: 02889310) and Mr. Aditya Wadhwa (DIN: 07556408) were appointed as Additional Directors in the capacity of Independent Director of the Company w.e.f. June 29, 2016. Accordingly, the above Directors will hold office upto the date of ensuing Annual General Meeting.

The Company has received notice(s) in writing under the provisions of Section 160 of the Act from the member(s) of the Company, alongwith required deposit proposing the candidatures of Mr. Kapil Dhameja and Mr. Aditya Wadhwa for the office of Director(s) of the Company.

Mr. Dhameja and Mr. Wadhwa, have given a declaration to the Board that they meet the criteria of independence as provided under Section 149(6) of the Act and the Securities And Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"). In the opinion of the Board, both directors fulfil the conditions specified in the Act and the rules made thereunder and the Listing Regulations for their appointment as Independent Directors of the Company and they are independent of the management. Mr. Dhameja and Mr. Wadhwa are not disqualified from being appointed as a Director in terms of Section 164 of the Act and they have given their consent to act as Director.

A brief profile of Independent Directors to be appointed, including nature of their expertise and other disclosure as required under Regulation 36(3) of the Listing Regulations, is provided at "**Annexure A**" of this Notice.

Terms & conditions of appointment of the aforesaid directors as Independent Directors are open for inspection without any fee by any member at the registered office of the company as per the details mentioned in note x.

Except these Directors, being appointees, none of the Directors and Key Managerial Personnel of the Company and their relatives are concerned or interested, financially or otherwise, in the resolutions set out at item Nos. 04 and 05.

The Board recommends the resolutions at Item Nos. 04 & 05 in relation to the appointment of Mr. Kapil Dhameja and Mr. Aditya Wadhwa as Independent Directors for the approval by the shareholders of the Company by way of Ordinary Resolutions.

Item No. 6

As per the provisions of Section 20 of the Companies Act, 2013, a document may be served on any member by sending it to him by post or by registered post or by speed post or by courier or by delivery at his office or residence address or by such electronic or other mode as may be prescribed. Further, proviso to sub-section (2) of Section 20 states that a member may request for delivery of any document through a particular mode, for which he shall pay such fees in advance as may be determined by the company in its Annual General Meeting. Accordingly, it is proposed that a sum equivalent to the estimated actual expenses of delivery of the documents through a particular mode, in case a request has been made by any member for delivery of such documents to him through such particular mode of service, be taken to cover the cost of such delivery.

None of the Directors or Key Managerial Personnel of the Company and their relatives are in any way concerned or interested, financially or otherwise, in this resolution.

The Board recommends the resolution as set out in Item no. 6 for approval of the Members to be passed as an Ordinary Resolution.
